WHEN death occurs in a distant city, it is still, possible for the relatives to make all arrangements through a local funeral director. This is always appreciated, as it obviates the necessity of dealing on so delicate a matter with unknown parties.

We are able to handle such assignments with the same thorough attention to details as when death occurs at home. If it is impossible for a member of the firm to reach the scene in time, we have connections with out-of-town funeral directors who will act as our agents.

When this procedure is followed, it assures the family of sympathetic service and the protection of their interest.
