VICTORY IS WITH A.P.S.

Gen. Kouroupatkin Seemingly Unable to Advance in the Face of Oyama's Opposition—Fighting is Fierce.

London, Oct. 12.—In spite of the boast of Gen. Kouroupatkin that there would be no retreat when once he ordered an advance of the Russian army in Manchuria, it is apparent that his forces are no match for the Japanese. Not only has Kouroupatkin been repulsed, but he is actually driven back toward Mukden all along the line. The battle is still in progress with relentless fury. Field Marshal Oyama's Japanese soldiers, however, are steadily forcing the Russians to retreat.

Positions North and South. The map shows the Russian positions to the north and Japanese positions to the south, with key locations like Mukden and Liaoyang marked.

Plans of Russian Commander. Have Not Been Divulged. St. Petersburg, Oct. 11.—A battle upon which the fate of this year's campaign in Manchuria depends seems only a few days ahead.

Stoessel Gives December as His Limit of Resistance. London, Oct. 11.—The Morning Post's Shanghai correspondent says it is stated that Lieut. Gen. Stoessel has written his superiors that he would before December he must surrender.

Japs by Storm Recover. Tokio, Oct. 11.—The Russians after crossing the Hun river yesterday assumed a position occupied by Gen. Kuroki's right wing.

HERO OF RUSSIAN RETREAT. Gen. Meyendorff was in command of the Russian troops which fought back the pursuing Japanese army from Liao-Yang to Mukden. It was the dogged resistance that he offered to every attempt of the Japanese to attack that enabled Kouroupatkin to escape north with his main army.

Hospital Trains Constantly Bring Wounded to Mukden. Mukden, Oct. 12.—Stubborn fighting is still in progress, this being the third day of the engagement. It is inevitable at this time to say what has been accomplished.

Rev. L. W. Clark, aged 79, pastor emeritus of the First Presbyterian church at Pana, Ill., and wife have celebrated their 53d wedding anniversary.

President Roosevelt received Miss Anna Kruse, principal of the Brommer school of Stockholm, Sweden, a representative of the Swedish government.

The United States district court in Denver denied the petition of Joseph M. Bacon, Henry O. Palmer and Russell Parker, asking that jurisdiction be taken over the assets of the General Metal company of New York, which failed for \$1,500,000, to be transferred to the New York court.

Robert Cummings shot and fatally injured Daniel Rosser, a wealthy resident of Hastings, Neb.

Nick McIntosh, a negro, was sentenced to the penitentiary for life at Baltimore, Ga., for trying to wreck a trolley car.

William A. Hoffmann was found guilty by a Waterloo, Iowa, jury of killing William Brandt at Mayestown Sept. 7, 1903.

Valuable Found on Dead. Russians Forwarded by Japs. St. Petersburg, Oct. 12.—The general situation in the east is constant except through the French embassy, of carefully fastened packets containing watches, rings, crosses, purses and money taken from the bodies of dead

WHAT ROME THINKS

THE POPE'S PHYSICIAN ENDORSES AN AMERICAN REMEDY.

Dr. Laponi Uses Dr. Williams' Pink Pills in His Practice Because Results Meet His Expectations. Dr. Laponi, the famous physician to the Vatican, has been repeatedly called so greatly to the front on account of his unremitting attention to His Holiness, the late Pope Leo XIII., and the high esteem and confidence with which he is regarded by the present Pope, His Holiness, Pius X. is a man of commanding genius. He is more than a mere man of science; he is a man of original and independent mind. Untrammeled by the "etiquette" of the medical profession, and having used Dr. Williams' Pink Pills for Pale People in his practice with good results, he freely avows the facts and endorses the value of this remedy with an authority which no one will venture to question.

Dr. Laponi's Letter. "I cordially wish to use Dr. Williams' Pink Pills in four cases of the simple anemia of development. After a few weeks of treatment, the result came fully up to my expectations. For that reason I shall not fail in the future to extend the use of this laudable preparation not only in the treatment of other forms of the category of anemia or chlorosis, but also in cases of neurasthenia and the like."

GIUSEPPE LAPONI, Via del Gracchi 522, Roma.

The "simple anemia of development" referred to by Dr. Laponi is, of course, that tired, languid condition of young girls, whose development to womanhood is retarded, and whose health at that period is so often impaired. His opinion of the value of Dr. Williams' Pink Pills for Pale People in such cases is the highest scientific authority and it confirms the many published cases in which anemia and other diseases of the blood, as well as nervous diseases, such as nervous prostration, neuritis, St. Vitus' dance, paralysis and locomotor ataxia have been cured by these pills. They are commended to the public for their efficiency in making new blood and strengthening weak nerves. After such an endorsement they will be accepted by the medical and scientific world at their full value.

Harmsworth Criticizes Americans. Sir Alfred Harmsworth, who is an expert on automobile matters, has been noting carefully the merits and demerits of the American machine during his visit to this country, and has come to the conclusion that it is an absurd waste of money for Americans to import an automobile instead of purchasing the domestic article. He says Sir Alfred: "I do not understand the folly of Americans importing cars and paying such ridiculously high prices for them, when, as everybody knows, the larger portion of these exorbitant prices goes into the pockets of Paris middlemen of more than doubtful reputation. It may be, as Barum said, that the American people like to be humbugged."

To Write an Economic History. George P. Grimsley, formerly of Washburn college and now assistant state geologist of West Virginia, has been selected by the Carnegie Institute of Washington as one of the eight contributors to a voluminous economic history of the United States. He will write on the history of petroleum and gas development in the United States, from the first discovery to the present time.

A golf expert says that small links are the best to play on. But large ones make the loveliest courses.
