

# SCIATIC TORTURE

**PAIN SUFFERED BY MR. MARSTON AS GREAT AS MORTAL CAN STAND.**

For Six Months He Could Not Turn to Bed—He Tells of a Remedy Which Has Given Perfect Relief.

The case of Mr. Marston shows that sciatica can be cured, and those afflicted by it should allow himself to be disheartened. He was first stricken about a year ago, and for six months he suffered pain which he thinks the most intense that any man could possibly stand.

Asked about the details of his remarkable recovery, Mr. Marston gave the following account: "I was attacked by a painless dull feeling back of my right hip. I didn't know what the matter was, but I thought it was simply a stiffness that would wear away in a short time. It didn't, however, and soon the pain became a very distressing one. Every step was torture for me. When I finally succeeded in getting home, it was just as much as I could do to reach my room and get to bed.

"The doctor was sent for, and when he had examined me he said I had sciatica. He prescribed for me, and advised me not to try to leave my bed. The advice was unnecessary for I couldn't get out of bed if I wanted to. It was impossible for me to turn from one side to the other. The moment I attempted to move any part of my body, the pain became so acute that I would have to lie perfectly motionless.

"I suffered this torture for six months without getting any relief. Then I discharged the doctor, and of the advice of a friend I bought a box of Dr. Williams' Pink Pills and began to take them, three at a dose, three times a day. I was determined to give them a fair trial.

"Two months after I began to use them I was able to leave my bed and walk about the house, and a month later I was completely cured and able to do about my work as usual. I think Dr. Williams' Pink Pills are the best medicine I ever used, and I heartily recommend them to anyone who suffers from sciatica."

Mr. Marston is a prosperous farmer and may be reached by mail addressed to Charles P. Marston, Hampton P. O., New Hampshire. Dr. Williams' Pink Pills have cured other painful nervous disorders, such as neuralgia, partial paralysis and locomotor ataxia. They are sold by all druggists.

# GOLDWIN SMITH ON OSLER.

Eminent Canadian Believes Professor Speaks in Jest.

Prof. Goldwin Smith, by way of answer to a question as to whether he admitted the truth of Dr. Osler's theory, pointed to the portrait which hung on the wall of Blake, the admiral, who was put in naval command for the first time when he was 50 years old. Then he said: "If Osler's theory had been speaking in jest, if he had spoken in earnest all history—political, military, scientific and literary—swarms with confusion. There is reason, however, to fear he may have done some mischief. Among tendencies of the present day there appears to be a disposition to reject from employment the middle-aged men and to fill their places with young men, who are supposed to have more 'push.' I have been told this is causing hardship. Osler should remember before sometimes produce serious effects and even when he speaks lightly his authority tells."—Toronto Star.

# Car Not Afraid of Death.

A lady who has been a good deal of the home life of the car with the British fleet, writes that she does not believe that his failure to meet his people face to face was due to cowardice. At the time of the Serbian murders it was rumored in the palace at St. Petersburg that one of the ministers had been so overwhelmed with terror that he ran away and hid himself in a dressing room. The czar spoke with contempt of the Serbian's supposed timidity. "I cannot understand," he said, "how anyone who fills a public post could hide himself from fear of death. I should like to see as far as the next town to escape death."
