French President's Double.

M Fallieres was until recently beHered to be the only president of the 
French republic who had no double, 
but his counterpart has been found. 
The man who most resembles him 
physically is a respectable merchant 
of the Rue Staint Honore, who plays 
his part with decorum and dignity. He 
wears exactly the same kind of blue 
butterfy necktie with white dots as 
the president, the same kind of hat 
and exactly so oddly cut a beard. And 
on his promeandes he is always accompanied by a friend who could esaliy be taken for the president's private 
secretary. Dignified and with measured steps the envisible double walks 
through the Faubourg Saint Honore 
and feels overjoyed at being saluted

wrecked and all persons in the Bullitt building, where its offices are, and in adjoining structures were thrown into panie.

The tragedy was the climax of a demand for a loan of \$5,000 which Steele made, first, to the president of the institution and later to the cashier. Failing to secure the money, he exploded the high-power bomb and chose followed. The man himself was torn to fragments.

The bomb thrower was found to have sleep Friday night at the Grant House, a hostely on the outstirts of the "tenseriorin" frequented mostly by registrate as All Steele R. New York. He arrived at the hotel about seven o'clock and engaged a 56-cent room. He carried a grip which he refused to allow the colored porter to carry to the room.

When detectives searched the room Sunday they fogind several yards of slow fuse, a wimber of detonating caps, a revolver and box of cartridges in the grip, together with a number of tools and some clothing. There was as suit bearing the tag of a Chicago clothing house and a pair of overalis marked with the name of a Lynchburg, Va, merchant. There was also a waybill for a box shipped over the Southern radiway. As Rollo Steele was reported to have been in Chicago and Lynchburg, the latter place within a few days, the police say there is little double as to the homb thrower's identity.

It appeared from the testimony that Mr. Harriman's colossal scheme for securing control of all the leading full that the security of the control of othe United States, crushing out competition and placing the millions of shippers at his mercy, has been vo-largely accomplished.

It was brought out that Mr. Harri-man has unlimited authority to bor-row any amount of money he chose and pledge all the assets of the com-panies he controlled as security. This authority had been used to make enor-mous purchases of stock in further-ance of Mr. Harriman's signatic scheme for the combination and con-solidation of vast railroad systems. For this purpose it was shown lift. Harriman has had supreme control of the assets of the Southern Pacific, the Union Pacific, the Oregon Short Line, and the Oregon Railroad and Naviga-tion companies, all of which are under his administration.

Since July 1, 1906, it was shown that on Mr. Harriman's initiative the companies he controls had bought stock in other roads amounting to that railroad's explicitation.

Comment That Stung.
The marquis of Lansdown, leader of unionist peers in the British parlisment, speaks rarely but always with effect. He revels in grave sarcasm. On one ocasica Lord Crewe, the ilberal leader, made a speech on a subject which he desired to leave a matter for open voting among his followers. Lord Lansdowne congratulated his friend on his eloquent speech. "I have followed it," he said, "with earnest attention not only on account of the importance of the subject but also on account of the noble lord's judicial attitude. I admired his earnestenses and eloquence, but what impressed me most was his impartiality." A pause. "Yes, until the last minute I did not know on which side of the fence his lordship was coming down."

Safe, Sure and Speedy.

No external remedy ever yet devised has so fully and unquestionably met these three prime conditions as successfully as Allocok's Plasters. They are safe because they contain no deleterious drugs and are manufactured upon scientific principles of medicine. They are sure because nothing soes into them except ingredients which are exactly adapted to the purposes for which a plaster is required. They are speedy in their action because their medicinal qualities go right to their work of relieving pain and restoring the natural and healthy performance of the functions of muscles, nerves and skine original and genuine porous plasters and like most meritorious articles have been steasively imitated, therefore always make sure and set the requise.

Some people call Perma a great tonic. Others refer to Perma as a great catarrh remedy.

Which of these people are right? Is it more proper to call Perma a catarrh remedy than to call it a tonic?

Our reply is, that Perma is both a tonic and a catarrh remedy. Indeed, there can be called the called the called the catarrh remedy. Indeed, there can be called the catarrh, the catarrh, remedy must not only have a specific action on the suncous membranes affected by the catarrh, but it spart have a specific action on the suncous membranes affected by the catarrh, but it spart have a canaral tonic action on the surcous system.
