

WHERE DOCTORS FAILED.

An interesting case from Salem, the Capital of Oregon.

O. A. Sutton, R. F. D. No. 4, Salem, Oregon, says: "Acute attacks of kidney disease and backache were laid up on and on for ten years. Awful pains started from the kidneys and I was unable to get through my limbs. I sought the best medical treatment but in vain, and when I began using Don's Kidney Pills I was walking with two canes and suffering continual pains, headaches and sleepless nights. I improved quickly and after taking three boxes felt better than I had for 15 years. The effects have been lasting."

The Psychological Moment.

The fact that Prizm was concealed with the adjuster did not prevent Candora from dropping in to say that she had told him just how it would be. "She was all I saved," murmured the burnt-out monarch, jerking his thumb at the retiring prophetess.

"Say no more related the other. "We'll call the loss total, and I could make it any more than that, old man, I'd do it, under the circumstances."

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods.

To calculate the rate of flow of an artesian well, a simple plan is to lower a bottle of aniline fluid to a depth of say 500 feet and then electrically explode a cap to burst the bottle.

Years may come and years may go, but the time will never arrive when a man will sit up and patch his wife's clothes after she is asleep in bed.

It takes almost as many tasters to induce him to pay for the job.

"The course makes all: degrades or hallows courage in its fall."—Byron.

CARES FOR WARDS

NEW LAW PROVIDES FOR STATE CARE OF INSANE.

Many Improvements in the Various Institutions Are Made Under the Board of Charities—Now Best in the Country.

Springfield, Ill., July 11.—Under the administration of Gov. Deneen the state charitable institutions have entered upon one of the greatest periods of advancement in the history of Illinois. The state asylums for many years had been too heavily burdened to keep pace in their charitable service with the advancement made during the last quarter of a century.

Water Treatment for Insane. As a part of the medical administration the water treatment for the insane is being installed in every hospital in Illinois. This form of treatment makes behind a big Greek name, it merely is a precise, scientific use of the "home doctoring" methods our mothers used.

Complete State Care of Insane. Perhaps the greatest single piece of legislation was the passage of the bill for complete state care of the insane. This marks the beginning of the greatest public charity epoch in the state of Illinois since the time of DeWitt Clinton 50 years ago.

Bartonville a Curative Hospital. This new law, furthermore, changes the policy of the state towards the chronic insane.

Education of Institution Physicians. The legislature provided for a central institution of instruction to be located at Kankakee. This institution will be under the direction of a man who has made successful study of mental and nervous diseases and who is familiar with the scientific laboratory work used by the foremost men in the world in the study and treatment of insanity.
