

HIGH SCHOOL PUPILS. WALK OUT

Teacher is Dismissed and Pupils Strike. Refuse to Return to Their Studies Unless Teacher is Reinstated.

CHICAGO PAPERS FAIRLY REPORT TROUBLE

Affair is Serious and its Effects Will Be Felt for a Long Time. The Discipline of the School is Demoralized.

An unfortunate state of affairs has existed in the public school here since Monday morning when a large majority of the students of the high school left in a body because of their disapproval of the dismissal of a teacher. Such wide publicity has been given the "school strike" that further notoriety is unneeded for.

To-day public feeling is strong that the Board of Education should reconsider its manner of dismissing, suddenly, Miss Olive Hurlbut, whose friends are legion in the town; any other adjustment of the trouble will not satisfy and the effects of this disgraceful occurrence in a town and school of this size will be felt for a long period. The discipline of the school is demoralized.

had with members of the Board of Education of Elgin, Woodstock and Wankegan who say, "The teacher should have a hearing before the Board."

The stories connected with the affair have never been proven, but their very existence has hurt the school.

A bad feature of the strike is that it said to be a political issue and a rather strong remark was made to gentlemen from the city to this effect, "The lowest people of the town are supporting Miss Hurlbut. People you wouldn't be seen on the street with."

Miss Hurlbut's sympathizers are among the prominent people, socially, financially and morally.

Where the Work Yoke Bears. Some people figure it out that the present phenomenal prices of food stuffs is due to the famine of labor on the farms. It is a plausible explanation, for the fortunes of nature are of no use to the farmer unless they can be gathered at prices which pay the husbandman. This scarcity of labor has existed in some fruitful sections for many years, and naturally food demanded with competition in wages involves, year by year, a wider agricultural area. Hard as it is for people whose incomes stand still and who have always had to pluck to make both ends meet to be held up for from 30 to 40 per cent more or do without the necessities of life, nevertheless the situation is not one to mourn over if high prices really mean that the harvesters are free.

strained by force to bear the yoke of labor. The lesson of the hour should make us more charitable toward those nations and potentates of the past who forced men to do their drudgery. They had to do it or civilization would have gone back ward. There are people to-day in this land of freedom and religious ideals who think the idle class should be forced to work; that the tramp and the loafer who eat and do not toll should be made to work under compulsion. It was this idea that often led to the practical enslavement of whole races in the past. The hands of the men who work are better of than the vagabonds who bark in the sun and trust to luck for food. The savage man gradually sees the difference and goes to work. Among the white and Yagui Indians there are a few young men who have earned money by working in the Mexican mines. These men are contented, and the hills are nearly depopulated of slaves. Their days are given to their work, and they are free. In Africa the same story is told. The results of labor are better than the results of idleness, and this incentive to toil is the factor that has led to the modern civilization of every day.

Do You Belong to "The Citizens' Committee?"

This committee is made up of the men who sit around an excavation for a new building, whittle pine sticks, spit tobacco juice on the fresh dirt and watch the other fellows work.

It's all right to show interest in new buildings, in town development and progress, but there's a better way.

You can do more good for yourself and the community by resigning from "The Citizens' Committee" and getting into the General Progress Committee.

This committee is the one that PUTS UP THE NEW BUILDINGS, brings new business into town to occupy them,

paints the old houses, keeps the sidewalks in good repair, beautifies the front yards, cleans up the back yards and otherwise makes this town a better town to live in.

The General Progress Committee is the Unofficial Town Booming Committee. It really ought to be organized and made official. Let all of us work together for the advancement of the town we live in, and there will be more room around new excavations for the fellows at work to throw out the dirt.

Eternal industry is the price of progress.

Let's all fall in line for the General Progress Committee—and then

JUST WATCH THE OLD TOWN GROW.

person toil for his own necessities and everything brought to the same plain. But civilization is based upon a division of labor, and in the long run it is bound to come to this, "The laborer is worthy of his hire," and all who enjoy the result of his toil must chip in and make up the price.

Lecture at Baptist Church.

Capt. S. Alberti, having lately escaped from Siberia through friendly assistance, is able to give one of the most thrilling and interesting experiences ever presented to the American public. Having served as an officer in the Russian army sixteen years, two years in Turkey, three years in the Caucasian mountains, and six years in Siberia in different capacities, namely, as engineer in the mines and explosives department from place, thus knowing practically the everyday life throughout Russia and Siberia.

He came to America several years ago, but had to return to Russia for the purpose of settling some business in regard to an estate left him by a near relative, when he was taken a prisoner and sent back to Siberia; on this occasion not to serve the country in an honorable capacity, but as an exile. He managed to make his escape through friendly assistance, and will impart to all the world his experience and what actually exists in Russia and Siberia, where there is so much suffering and torture.

It will be time well spent by any one to attend this lecture, as it is instructive and elevating, giving them an opportunity to learn something they will never forget in a lifetime, and it is not given by a person that has traveled through that country for pleasure but from the everyday life of one that has passed through all its privations. Illustrated with 100 stereoptical views and moving pictures. At the Baptist church, Wednesday evening, October 23rd, at 8 o'clock. Admission 25c. Reserved seats 50c.

Want Free Advertising

We sympathize with the Nunda Herald which published the following in a recent issue—

"Now is the time when the country newspaper men are receiving letters asking the writer to be a candidate for some office and any aid the editor can bestow will be greatly appreciated. Yes, no doubt it would. On the other hand any aid politicians can bestow the editor to recompense him for the space used in his paper would be appreciated. If politicians want to advertise their business why don't they include a cheque as evidence of good faith, for the amount of advertising they desire, and send along copy, properly signed, for advertising? Talk about business. If there is any business in a newspaper man giving away his space any more than a merchant giving away his goods we are unable to see where it comes in."

The Review is also aware publishing every body's opinions with never a penny of pay, but we many "editorial publications" remarks. Those who send their job printing out of town and don't subscribe to the home paper generally don't want to pay space.

Final Assessment Notice.

Out of Sight.

"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles (too) and chilblains disappear under its healing influence. Guaranteed by Barrington Pharmacy 25c.

Dies of Burns

Monday afternoon an accident on the farm of George Popp, south of town that cost the life of Rosa Jahnke, the ten year old daughter of William Jahnke of Barrington township. The girl who had lived at the Popp home sometime, was attending to the care of a young child in the house and was alone. Mrs. Popp being at work in one of the barns and Mr. Popp out in the fields. Suddenly a scream was heard by Mrs. Popp and she saw the poor girl running across the yard enveloped in flames. The lady caught the child and extinguished the flames. But the burns were so severe that she did not recover full consciousness and died at four o'clock Tuesday morning. It is well known how the became ill, and there were no marks nor signs in the house to judge by. Mrs. Popp was quite badly burned on the hands and arms.

The funeral was held Wednesday afternoon at St. Paul's church and burial was in the Main street cemetery.

"Hope you wasn't rolled because I told that capital story of Jennie, were you, old fellow?" "I wasn't a 'funny' society man. 'It was done innocently, wasn't it? You don't mind?' 'Certainly not,' replied the owner of the job. 'I told it myself just before you came here'.
