# BALLOON LANDS IN CANADA

## MAJ. HERSEY'S AIRSHIP COMES DOWN NEAR HAMILTON.

Made About 700 Miles—Pommern Whirling Over Lake Erie—Others Reported in Ohio and W. Va.

St. Louis.—The beginning of the end of the greatest ballooning race held in America, the second contest for the international aeronaut cup, was signalled Tuesday night by the landing of the American balloon United States at a point 11 miles south of Hamilton, Ont., near the shores of Lake Ontario.

The United States is believed to have had the lead in the race at the time of landing, and in its 25 hours of flight from St. Louis had covered a distance of approximately 700 miles, measured in an air line. The United States is the present holder of the cup and the record for the race, having established it in the flight from Paris last year at 402 miles. The pilot of the balloon is Maj. Henry B. Hersey of the United States army, based at Washington, who acted as aid to Lieut. Lahm of the United States army when he piloted the balloon in its winning race of 1906.

The nearest rival to the United States is believed to be the big chrome yellow German cruising balloon, the Pommern, which was last reported as whirling across Lake Erie in the teeth of a 35 mile gale. The Pommern passed over Cleveland during the afternoon and sent down a message reporting "all New York."

It is figured that the Pommern was but a little distance behind the United States during the afternoon, and if she was able to remain up after crossing the lake there was a belief that she might exceed the excellent record of the United States.

With the exception of the United States and the Pommern, all of the other contestants seemed to be scattered Tuesday night over the states of Ohio and West Virginia.

## DRIVE DRUDE'S TROOPS BACK TO CASABLANCA'S WALLS.

Spanish Warship Helps Save the City—Castle Anfoos, Full of Treasure, Is Menaced.

Taglar.—According to semi-official information received at the Spanish legation here Tuesday, the French forces at Casablanca, under the command of Gen. Drude, suffered a serious repulse at the hands of the Moors Monday.

Moorish troops, estimated to number 7,000 men and equipped with field guns and modern rifles, not only drove the French back to the city walls, but menaced the town to the extent that the French authorities found it expedient to request aid from a Spanish warship in the harbor to repel the attack.

Castle Anfoos, located at Tinsourin, near Mogador, which is known to hold half a million dollars, is endangered by the advance of the Third division under Mulai Hatid. The castle is being defended by Calid Anfoos himself, who represents Sultan Abd-El-Asis in the south.

The French troopship Artois left here Tuesday hurriedly with troops and machine guns on board. This force is going to the assistance of Calid Anfoos. The transportation of troops is seriously hampered by the lack of ships and the outrageous charges of the transportation companies.

# RUSSIA BETS WALLINGS FREE.

## Capt. English's Efforts Also Liberate Miss Rose Strunsky.

St. Petersburg.—William English Walling, of Indianapolis, his wife and his wife's sister, Rose Strunsky, who were arrested and taken to jail Sunday night because of their association with members of the Finnish progressive party, were released Monday evening. The police found nothing among the papers of the trio to warrant detaining them. No conditions are attached to the release.

The officials expressed regret at the arrest, which they say was ordered upon the report of an over-zealous spy, who had been shadowing the Finnish revolutionists with whom the Americans had been associated.

The two women prisoners were confined for 24 hours in a prison overcrowded with young women revolutionists. They were put in a small cell, eight by ten feet, but they said Monday evening they had suffered no special discomfort during their arrest. They told amusing tales of the laxness of Russian prison discipline.

As soon as it was rumored in the intelligence that two American women had been brought in, they began to receive visits from the other prisoners. They held a regular reception in their cell, and related the latest history of the outside world to the curious and eager women who crowded to see them.

Levi P. Brochway, 6 Second Ave., Anoka, Minn., says: "After lying for five months in a hospital, I was discharged because the doctors could not cure me. I was given only six months to live. My heart was affected. I had a cough, spells, and sometimes fell unconscious. I got so weak that I could not walk. My eyes were impaired and the kidney secretions were badly disordered. I was completely worn out and discouraged when I began using Doan's Kidney Pills, but they went right to the cause of the trouble and did their work well. I have been feeling well ever since." ## Something New in Tablecloths.

The had come into the store to buy tablecloths and she stated in the beginning that she wanted something "new."

The salesman was patient and showed her everything in stock, but nothing suited.

"Oh, dear!" she exclaimed, finally, "haven't you anything different?"

The clerk brought out one of the discarded tablecloths that he had put back on the shelf, and said with an air of interest:

"Here is one of the very newest designs. Modern. You see, the center is in the middle and the border runs right around the edge."

"Why, yes! Let me have that one," she said eagerly.

Sheer white goods, La fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

# STRETCHING RINGS.

A Jeweler in Third Avenue, New York city, advertises "Wedding rings purchased here will be stretched to any size without extra cost." His enterprise is based on a knowledge of human frailty. "The girl often happens to balk," he says, "and the fellow gets it in the neck. The ring for that intended may not fit the finger of the next intended; so I stretch it for nothing. I have stretched rings as many as five times for one man." Why not use rubber rings?
