## BOARD OF LOCAL IMPROVEMENTS OF THE VILLAGE OF BARRINGTON.

### Barrington Special No. 2.

#### NOTICE FOR LETTING CONTRACT.

Notice is hereby given that bids will be received for the furnishing and laying of a connected system of cement sidewalk walks five feet in width, in accordance with a petition filed in the County Court of Cook county, Illinois, on Lot two (2) of the north 18 feet of Lot one (1) in block thirteen (13) in said village of Barrington, including excavating, filling, sand, gravel, and cement, the making and running and all necessary labor and material to complete the work as a whole, and in accordance with the general ordinance concerning sidewalks. Said bids will be opened on the 15th day of April A. D. 1907, at 8 o'clock P. M. at the office of the Board of Local Improvements of the Village of Barrington.

The specifications for such improvements and blank proposals will be furnished at the office of Miles T. Lampe, President of said board in the Village of Barrington.

AN improvement or bid made upon the blanks furnished by the Board of Local Improvements and to be accompanied by cash or by certified check payable to the order of the President of the Board of Local Improvements, of the Village of Barrington, on some responsible bank, located in and doing business within the County of Cook or Lake, for the sum of not less than ten per cent of the aggregate of the proposals. Said proposals or bids must be delivered to President of the Board of Local Improvements in open session of the said Board at the time and place fixed herefor for opening the same. No proposal or bid will be considered unless accompanied by cash or check, as herein provided. The Board of Local Improvements reserve the right to reject any or all bids should they deem it best for the public good. Companies or firms bidding will give the individual names with their respective addresses as well as the name of the firm.

MILES T. LAMPE

President of the Board of Local Improvements of the Village of Barrington. Dated April 5th, A. D. 1907.

#### Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y. "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by Barrington Pharmacy, 6c.

#### More Than a Regiment.

Sixteen hundred residents in cities and towns near Chicago ordered telephones during march. Does this fact appeal to you? Do you need more proof of the value of the service? Why not order NOW? CHICAGO TELEPHONE COMPANY.

Write for our plan of collecting. Business and Professional Men send in your claims for collection. THE NATIONAL CREDIT CO. Law and Collections, Matthews Bldg., Milwaukee, Wis. 16

## SCHOOL NOTES

The High School quartette sang in the opening exercises Thursday morning.

Miss Alta Powers is licensed to teach in Lake county.

Miss Clara Webber, who was a Barrington teacher last year, visited friends here over Sunday.

Former principal P. E. Smith was shown through the school building during his recent visit among friends and expressed himself as delighted to see so fine a structure on the site of the old building in which he so long and so faithfully served the people of this district. Mr. Smith has a strong hold upon the affections of the pupils who clamor under his instruction or supervision and his gentleness has done much to build up the fine school spirit that Barrington may well take pride in.

Miss Hodgkins, a teacher of Arlington Heights and Miss Abbott, a teacher of the LaPayette school of Chicago, visited Mr. Fulton's family a few hours Sunday.

Miss Louise Bohner has sufficiently recovered from her recent illness to be again in school. Verne Hawley is also back again and working over time to make up his work in chemistry and English. Verne is determined to graduate with his class.

The Misses Lott, Holbertson, Ellis, Hawley and Johnsons and Mr. Fulton attended the regular meeting of the Cook County Teacher's Association Saturday. Dr. Earle Barnes lectured on the "Greatest Needs of American Children." Dr. Barnes thinks the American children are made to live a life too strenuous for their bodies, and that the racial characteristics due to mixed ancestry. Here children are forced into the various social activities at a much earlier age than in other countries. "Quiet" says he "is the greatest need of the American children."

The boys who like to play ball were called together by the principal and assisted in the organizing of Edward Volker and Roy Colten were chosen captains of two secondary teams from which another team will be chosen which will be the regular Barrington High School team. The captains will choose their respective teams as soon as they see the boys show their quality. The purpose is to benefit the health and contribute to the pleasure of the boys and that part of the people who like to see the national game.

Robert Bennett, care-taker, has been in the clutches of the Grippe for a few days but stays pretty close to his post of duty. The general appearance of the school grounds speaks for his diligence.

The Board of Education has instructed the committee on building and grounds to make the necessary planting of trees and shrubs.

Many pupils are planning to have a flower and vegetable garden.

School election will be held Saturday evening, April 20, at the school house, from 6:00 to 8:30 p. m. The present Board of Education has worked in perfect harmony throughout the year and have lost not an opportunity to better the conditions of the school. The president and members whose terms expire should be reelected by a large vote even if there are no opposing candidates, this would show them that their prudent management is appreciated.

#### ROOM THREE

The work in painting for the rest of the month is to be the study of vegetables. We hope by the end of April to have a whole vegetable garden pinned up on the wire at the top of the black board.

The work in the language class for the fourth grade for some time to come is to be "public speaking." Each pupil will be handed a card on which there is some suitable topic, and after allowing a few days for preparation, he will tell the class all he has found out about his subject. This was done last year with good results.

The B fifth grade is much interested in the American History Stories which they are reading. These stories correlate very nicely with their geography work.

#### "Pneumonia's Deadly Work"

had so seriously affected my right lung," writes Mrs. Fannie Conner, of Rural Route 1, Georgetown, Tenn., "that I could not tell continually night and day and the neighbors' prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all other remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by Barrington Pharmacy, 50c and \$1.00. Trial bottle free.

A little ad in the Review will find your lot articles, rent your home, and send you in many ways.

## Early Marriage Results.

Divorces are, happily, rare in society circles. Separation by mutual consent, however, grows more frequent every year. Every one has upon his or her visiting list husbands and wives who never meet if they can help it, but between whom there has never been an open breach, incompatibility of temper is the usual cause, and the reason for that is, one imagines, the still common custom of encouraging the young to get married to many before they have begun to approach years of discretion.—London Tribune.

"Do you really believe that an ex-verse spoke to Bullam?" queried a man who pulled himself on his superiority to the elf-locks.

Colorful, to whom the question was put, replied: "My friend, I have not spoken to him in the same way myself."

## C. F. HALL CO. CASH DEPARTMENT STORE DUNDEE, ILLINOIS

### Cold Weather

The severe, unseasonable cold of the past fortnight forced jobbers to cut the prices on their spring goods. We with a member of the firm now buying in New York were able to take advantage of this market.

### CLEANING THE TOWN.

Garbage Can Furnaces for the Disposal of Refuse.

### WASTE BURNED ON STREET.

Innovation Made by Street Cleaning Department of New York City Has Proved Worth While—Refuse Destroyed Quickly.

The plan recently adopted in the city of New York for the disposal of refuse on the streets by burning it in cans is proving highly successful. So well did one of the portable refuse incinerators that were given a trial in the work that twenty-five more were purchased, and it is likely that hundreds of other municipalities will be in use through out the city. This plan might be adopted in any progressive town or village to advantage, as nothing so vile as the beauty of a place like rubbish scattered on sidewalks and streets. Not only is trouble saved for the new street work it is to keep the streets sweet and the street cleaning equipment feels that an important step in the sanitary handling of town waste has been taken.

Nothing could be more simple than the new incinerators and nothing cheaper, since they are merely wood or street cans, making a furnace, one can simply take the common New York, Cal. recently turned out with picks and shovels and smoothed the wrinkles of Washington boulevard. In the early morning hours the workers and daughters of mill-millions. Dirt began to fly early in the day, and holes which have been the bone of travelers since the thoroughfares were filled and given a high finish. At noon lunch was served under the trees at the roadside. Auto parties which passed along the road cheered the women shovers.

### Bitten by a Spider

Through blood poisoning caused by a spider bite, John Washington of Boquerelle, Tex., would have lost his leg, which became a mass of running sores had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." Many advantages of this salve are given every sore. 25c at Barrington Pharmacy.

### Girl Friend—They are telling the story that when you and Harry die you kiss each other after every course. You don't do you? Young Bride—No we can't after the first course. Harry says he knows better than to take anything sweet on a system.—Chicago Tribune.

### A Stange Tail.

Because of the effect from the tail of the comet, prognosticators assert that a hot summer is in prospect. Nothing so pleasing as a telephone in hot weather. You remain in your home or office and talk with friends without exertion. We have rates for any price. CHICAGO TELEPHONE COMPANY.

### The Price of Health.

"The price of health is a marvellous district is just 25 cents; the cost of a box of Dr. King's New Life Pills, writes Ella Slayton, of Noland, Ark. New Life Pills cleanse gently and impart new life and vigor to the system. 25c. Satisfaction guaranteed at Barrington Pharmacy.

### Plain Truths.

You will be surprised, after ordering a telephone, at the countless ways in which it can be used. Our subscribers find that it saves its cost. Why not order NOW? CHICAGO TELEPHONE COMPANY.

### Fire Protection For Small Towns.

Suggestions made by Committee of Municipal Journal and Engineer.

At a recent convention cover the question of fire protection, the Municipal Journal and Engineer, expressing the views of water supply plants must vary, but in any case fire protection must be adequate to meet the needs of the community. The fire protection of a town should not be more than twenty feet from the level of the street, and the fire protection should be adequate to meet the needs of the community. The fire protection of a town should not be more than twenty feet from the level of the street, and the fire protection should be adequate to meet the needs of the community.

### Rich Women Make Dirt Fly.

As an object lesson to dirty high society, the women of New York, Cal. recently turned out with picks and shovels and smoothed the wrinkles of Washington boulevard. In the early morning hours the workers and daughters of mill-millions. Dirt began to fly early in the day, and holes which have been the bone of travelers since the thoroughfares were filled and given a high finish. At noon lunch was served under the trees at the roadside. Auto parties which passed along the road cheered the women shovers.

### TOWN IMPROVEMENT.

The Vines and Shrubs That Give Beauty to Parks.

If the people of any town or village would all take a hand in improvement work, doing what they could in this direction, the result would be surprising in a short time. Almost any one can afford to plant seeds and beautify the home and grounds with flowers. Nothing adds more to the attractiveness of the home than vines, scandaliery and flowering plants properly grouped about the house and lawn. There are some good points on planting by Dr. H. C. Whittier, horticulturist to the Missouri experiment station.

In beginning spring gardening or ornamenting the home vines planted about the house and driveway are one of the first and most effective features. Vines lead privacy to the porch, exclude the sunlight and soften the formal lines of the house. Vines may be used as screens to cover up back fences or to hide outbuildings or other unsightly objects. The best way to succeed in the planting of vines is to have the soil well spaded up as early in the spring as it can be worked without being too sticky. This is necessary in order to get a good cover or screen to grow or outbuilding. The spaded area need not be over eight inches wide, just enough to kill the grass roots back from the roots of the vines and prevent their mingling.

One of the most common mistakes is to set the roots too deep in the soil. The soil water should be about an inch and a half below the roots. The vines are liable to injury if planted too deep. An examination of the stem of each plant will show the planter how deep the vine stood naturally in the soil, and it should be planted accordingly. Perennial vines should be trained on galvanized wires that will not rust. Horizontal wires are the best apart may be attached to the woodwork of the house or other building that it is desired to screen.

If it is desired to train the vines laterally above, so as to close in, for example, the opening in a porch, wires may be placed about a foot apart at the desired height. Two or three wires are sufficient. Too often wires of iron mesh are used. These are not satisfactory, as the vines twine around the wires as closely that subsequent pruning is impossible. For the annual vines other wires or strong cord may be used.

Among the best ornamental shrubs for home planting are the golden bell or forsythia, Japanese quince, blue bush honeysuckle, mock orange, snow ball, butterfly, various species of apricot, weigela, alibum and hardy drummond. These blossom in the order named. By selecting the entire list one can obtain flowers on a tree or bush by cutting around it, but by holding on with the points of its scales. A snake on a pane of plate glass is helpless.

### Avoid Colds.

Spring fevers, cold rains, rains cause wet feet, wet feet encourage colds; colds produce docters' bills. Avoid rains, wet feet, colds and docters' bills by ordering a telephone. It will save its cost. CHICAGO TELEPHONE COMPANY.

### Snake Motion.

The vertebrae of a snake are fitted together with a sort of ball and socket articulation, which, however, is capable of motion only from side to side. A snake moves by squawling himself on the points of its scales, which, to him, answer the purpose of ribs. A snake does not climb a tree or bush by coiling around it, but by holding on with the points of its scales. A snake on a pane of plate glass is helpless.

### Do You Want An Auto.

The telephone is the poor man's automobile—it travels 894,002 miles as fast and costs only a few cents per day. If you can't afford an auto, get a telephone. CHICAGO TELEPHONE CO.
