A BUSINESS PROPOSITION.

The Local Newspaper is Not an Object of Charity.
"The old idea of helping support the local newspaper," remarked the editor of a country paper, "has played out. Country newspapers have changed amazingly in recent years. There has been a time when a few newspaper men were objects of charity, when the fellows who tried to run them sought advertising on the ground of supporting the paper, but those days have passed.

"A newspaper is a business proposition. It has two commodities for sale, each of which is worth money, just as potatoes, legal services or dry goods are worth money. These commodities are subscriptions and advertising space. Now that nearly everybody takes the home paper it would seem that nobody should have to be 'shown' that advertising space in the home paper is worth money to the buyer, that he, if he knows how to use his space intelligently. And most advertisers in late years have learned how.

"The old argument was that the paper helps to build up the town and is obtained by going after them." The new argument is that the paper will help to build up your business if you use its advertising columns."
Tree Snakes of Borneo.
The flying frogs of the Malay Peninsula are mythical, but the tree snakes of Borneo are not. They are taking flying leaps from the boughs of trees to the ground. It is found that scales on the lower part of the body may be drawn inward so that the whole lower surface becomes concave. The result is an air-tight cavity. The result is, and experiments indicate that the snakes do not fall in wretched coils, but are let down gently in a direct line to the point of their feet, where their peculiar bodies, Chambers' Journal.

Organize Park Association.

A number of prominent business men and citizens met at the Village hall last evening and formed an organization to be known as the Barrington Park Association. Miles T. Laney was chosen president and John L. Myers secretary.
The main object of the organization at present is to make an effort to improve the surroundings at the Chicago & North-Western depot. A committee composed of G. W. Spinner, H. J. Lageschulte and A. L. Robertson were appointed to investigate the cost of making the improvement desired. H. J. Lageschulte promoted the meeting and has been active in the matter. The North-Western has agreed to keep the grounds around the depot kept up if the citizens show enough interest to put them in shape.
Another meeting will be held at the Village hall Wednesday evening. May 1st to which all interested are asked to attend.

Do You Want An Auto.

The telephone is the poor man's automobile. It travels 804,000 times as fast and costs only a few cents per day. If you can't afford an auto, get a telephone. CHICAGO TELEPHONE CO.

Y. M. C. A. Entertainment

The Y. M. C. A. will give an entertainment in the Fellowship hall, Tuesday evening, May 28, when the public should patronize liberally. Two prizes will be given named "My Lord in Livy" and "Out in the Garage" in which about sixteen people will appear who are to be trained by Mrs. M. L. Spinner.

Avoid Colds.

Spring brings cold incursions; rains cause wet feet; wet feet encourage colds; colds produce doctors' bills. Avoid rains, wet feet, colds and doctors' bills by ordering a telephone. It will save its cost. CHICAGO TELEPHONE COMPANY.

Additional Locals

Mr. and Mrs. August Pahlke and daughter Alma spent Wednesday in Plattville.
The village board will meet in an adjourned session next Monday evening. The new members will be installed and President Laney will become plain citizen Laney.
Barrington Knights of the Grid No. 127 installed officers at their hall Monday evening. The principal officers are: Chief, John C. Plagge; President, Fred Kramer; Secretary, Henry Schroeder; John C. Plagge was the installing officer. After a presentation a banquet was given with a pleasant evening session.

Harbor Water.

A Scotch poet has an ingenious notion for signifying to (standing and not going) vessels the depth of water in the harbor. A mast on top of a small rectangular building has a vertical cable on either side, one carrying four large balls at specific distances, the other three. Each ball weighs 100 lbs. out of water and it is raised and lowered on the cable by a foot in the signal house. At high tide all three balls are visible, but as the tide falls one by one the balls disappear. At night a system of powerful lights in the face of the building is used. These lights are automatically turned on and off at the correct time.—Dundee Advertiser.

An Honest Whisky Business.

The Chronicle says editorially, for the last century in this country the sale of whisky has been almost entirely fraudulent. Most of it has been ethyl alcohol, flavored and drugged to taste like whisky. It has received the name of "blend," and the whisky dealers had fondly hoped that under the pure food law they would be allowed to continue this practice. The president has now disabused their minds of that delusion.
Hereafter straight whisky must be labeled as such. The name of "blend" is to be reserved for a mixture of two or more straight whiskies. If anyone wants to sell straight whisky with ethyl alcohol in it, he may do so, if he labels it as a "compound," provided the amount of straight whisky in it is not so slight as to make it fraudulent. Then any imitation whisky must be labeled as such.
There is every reason why the whisky traffic of the country should be made honest. The fact that people are the victims of a bad habit, it is not such a reason why they should be defrauded in connection with it. They have a right to know exactly what they are drinking and paying for, and more particularly, because the liquor traffic affords the largest profits of any business in the world.

Bitten by a Spider

Through blood poisoning caused by a spider bite, John Washington of Bessemer, Tex., would have had his life, which became a mass of running sores had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." Heals every sore. 25c at Barrington Pharmacy.

A Strange Tail.

Because of the effect from the tail of the comet, prognosticators assert that a hot summer is in prospect. Nothing so pleasing as a telephone in hot weather. You remain in your home or office and talk with friends without exertion. We have rates for any distance. CHICAGO TELEPHONE COMPANY.

Lion Taming.

Men who have had long experience with lions give decidedly a very bad character. There is said to be no art in lion taming but the art of terror, and no rule but knowing the lions' stomachs full and their minds empty. There never has been, and there never will be any such an animal made to the lion's intelligence, because the limited amount of that quality which he possesses is dominated by his ferocity.

Doing Business Again.

"When my friends thought I was about to have been laid to rest, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treatwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I am now able to say that they are curing me. I am now doing business as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by Barrington Pharmacy, 50c.

Price of Health.

"The price of health in a moderate district is just 25 cents; the cost of a box of Dr. King's New Life Pills, writes Ella Shaylor, of Noland, Ark. New Life Pills cleanse gently and impart new life and vigor to the system. 25c. Satisfaction guaranteed at Barrington Pharmacy.

More Than a Regiment.

Sixteen hundred residents in cities and towns near Chicago ordered telephones during March. Does this fact appeal to you? Do you need more proof of the value of the service? Why not order a Standard 400-000 TELEPHONE COMPANY.

A Real American Play.

Kiss & Exchange "The Round Up" scored the most sensational success ever known in Chicago on its production in McVicker's theatre April 15th. The audience at the first performance, and at every presentation of the play since then, have stood up and cheered wildly the conclusion of the great emotion battle in which Apache Indians and U. S. scouts and cavalry men met together in a mountain gorge. The Chicago newspapers, without exception hailed the new play with enthusiastic praise. "The staid and conservative Tribune says: 'A success, a big success.' The Examiner heads its story of the play with the lines: 'Play, cast, audience, wild.... Great.... may bring cheers from a thousand throats' and continues: 'Success, unqualified, complete, crowned the first performance.' It has been a long time since the walls of the first class Chicago theatre heard a sound like the thousand throats of our pit and parquette, who which greeted the climax of the play. The drama is not staged, such is no reason why they should be defrauded in connection with it. They have a right to know exactly what they are drinking and paying for, and more particularly, because the liquor traffic affords the largest profits of any business in the world."

Hitherto the whisky business has been largely a fraud and a swindle. Hereafter it has got to be mostly honest.
