

SEEKS CHIEF'S LIFE

PLOTTER ATTEMPTS MURDER CHICAGO POLICE HEAD.

ASSASSIN SHOT TO DEATH

Chicago.—What is believed to be a deep-laid plot to wipe out the entire body of officials in charge of the city administration was brought to light Tuesday, following a sensational attack upon Chief of Police George Shippy. Threats have been made against Mayor Fred Duane, Chief of Police Shippy was stabbed in the right side, his son Harry, 19 years old, was probably fatally shot in the left lung and his driver, James Foley, was wounded in the right wrist by a desperate assassin who attempted to kill the head of the police department in the front hallway of his home Monday. The assassin was himself killed by the chief, who fired a bullet into his right temple. The assassin is declared to have been an anarchist and leader of a plot aimed at others beside the chief.

Man is Identified.
The man who attempted to assassinate Chief of Police Shippy, and whom the chief killed, was identified as Lazarus Averbuch, a 26-year-old Russian Jew, who had been in this country only three months. He resided at 218 Washington avenue with his sister Olga, 25 years old. He had worked a month for W. H. Eichenborn & Co., 183 South Water street, a commission house.

Averbuch was an anarchist of a morbid, insane type—a disciple of Emma Goldman, "Queen of the Reds."

Mrs. Shippy Near Death.
Mrs. Shippy and the chief's daughter, Georgia, 22 years old, were eyewitnesses of the tragedy. The chief's wife narrowly escaped being killed herself in an effort to prevent the assassin from drawing his revolver. Harry Shippy was rushed to the Augustus hospital, where his condition was said to be precarious. He was operated on immediately, but physicians despaired of saving his life, as he was just recovering from an attack of grip.

Busse Admits a Threat.
The supposed anarchist called at the chief's residence an hour before the shooting and was denied admittance by a domestic, Theresa Tauber.

Mayor Busse.
He also called at the chief's home Sunday morning, but Shippy was not home. Mayor Busse admitted after the shooting that he had ejected a man from his office Monday who had acted in a questionable and persistent manner to see him, and Assistant Chief Schustler started to work on the theory that the attempted murder may have been a carefully concocted plot on the part of anarchists.

"Red" Dragnet is Out.
A clearing-up of anarchists throughout the city was ordered by the police and Mayor Busse, as a result of the tragedy. Two raids were made at once under the direction of Inspector Lavin at 109 Newberry avenue and at West Taylor and Halsted streets. Quantities of anarchistic literature were seized.

Inspector Lavin held Edward Bernan, cobbler, 575 West Twelfth street, Tuesday, under suspicion of being implicated with Averbuch. A telephone message from an anarchist to Bernan, saying, "For God's sake get out of town; they're on" overheard by Lieut. Darrow, caused the arrest. Bernan admitted being an anarchist and knowing the assassin, Chief Shippy.

EX-INSURANCE LAWYER DIES

ANDREW HAMILTON PASSES AWAY AT ALBANY, N. Y.

Well and in Evidence About Home Town Day Before—Autopsy Declares Heart Failure as Cause.

Albany, N. Y.—Andrew Hamilton, formerly counsel to the New York Life and other insurance companies, and in charge for many years of insurance litigation and legislative matters in all parts of this country and Canada, was found dead in bed Sunday at his home in this city. He was about the city the day and night before, apparently in normal health, and his death was entirely unexpected, although he had been falling to some extent ever since the death of Mrs. Hamilton. An autopsy Sunday afternoon disclosed an acute dilation of the heart, which must have caused practically instantaneous death at some time during the night. Judge Hamilton was so-called because he was twice elected judge of the Albany court, was most widely known in a popular way by the connection of his name with disclosures regarding political and legislative matters during the insurance investigation of 1905. Judge Hamilton was 54 years old, having been born in Lansingburg April 29, 1854. He was formerly district attorney of Albany county, clerk of its state court, and during the past ten or fifteen years had become widely known as an authority upon corporation and especially upon insurance law.

AtTEMPT TO KILL SHAH.
Bomb Meant for Persian Ruler Killed Three Outsiders.

Teheran, Persia.—An attempt was made in this city Friday afternoon to assassinate the shah of Persia by a bomb. His majesty was not hurt. Three of the outsiders who were accompanying him at the time were killed. The shah escaped by the precautions taken to protect him from just such an attempt as was made Friday afternoon. He was on his way to a nearby town where he intended to pass a few days. The procession had left the palace and was traversing a narrow street when two bombs were hurled down at it from the roof of a house. One exploded in the air, but the other struck the ground near the shah's automobile. This missile in exploding killed the three outsiders. The explosion shattered the vehicle.

STIRS UP NAVAL PROBE ROW.
W. H. Sims, Roosevelt Aide, Makes Many Warm Charges.

Washington.—Commander William H. Sims, naval aide to President Roosevelt, by his own statement is responsible for the "row" over criticisms of battleship construction. At the outset of his testimony before the senate committee on naval affairs Monday he gave the committee to understand it could expect some sensation. Continuing, he said he would have to go into unpleasant facts, such as charging officers or inventors with having made misleading statements, and the refusal of superior officers to accept suggestions of value. The plan of Commander Sims to give the committee a sensational was upset immediately by Senator Tillman.

WINTER WHEAT CROP

HE REALIZED \$38 PER ACRE. HIS OATS \$37 PER ACRE IN SOUTHERN ALBERTA, WESTERN CANADA.

Coaldale, Alta. Can., Nov. 19, 1907.
Sir: I beg to say that this year we had 249 acres of grain, consisting of 197 acres of wheat and 152 acres of oats. The average yield of wheat was 38 bushels per acre and oats 74 bushels. We were offered \$1.00 per acre, losing about 50 cents for the two crops \$38.00 and \$37.00 respectively.

We also had 50 tons of hay worth \$13.00 per ton, and 600 bushels of potatoes, worth 60 cents per bushel, the latter of 2 1/2 acres of ground.

Our best yields this year were 107 acres of wheat, making 41 bushels per acre at \$1.00 per bushel, worth \$41.00 per acre; 47 acres of oats, yielding 95 bushels per acre were sold for 50 cents per bushel. Proceeds, \$47.00 per acre.

I might add that 50 acres of our oats were "stabled in."

During the spring of 1906, we hired about 300 acres broken by steam. We put in and harvested 55 acres of grain last year, did the remainder of our breaking, worked up the ground and seeded this year's entire crop, put in seven acres of alfalfa and five acres of garden potatoes, trees, etc., all with one four-horse team. During the year we hired other teams, but aside from this, and part of the breaking, the one team did the work of raising practically 19,000 bushels of grain, worth \$12,000.

WINTER WHEAT 25 TO 30 BUSHELS TO THE ACRE IN SOUTHERN ALBERTA.

Warner, Alta. Canada, Jan. 9, 1908.
Dear Sir: This is the first year of farming in this settlement. Mr. A. L. Warner raised twenty-five hundred and fifteen bushels of fine winter wheat on one hundred acres of breaking and Tenny brothers had sixty acres that went thirty bushels per acre. The winter wheat that is in this year looks fine.

Spring wheat here went thirty bushels per acre, oats fifty to eighty, barley fifty, and flax ten to fifteen on sod.

The settlers here are all well pleased with the country. The stock have not required any feed except the grass up to this date and are all fat.

Yours truly,
F. S. LEFFINGWELL.

SPITE.
Proud Mother—Everybody says the baby looks like me.
Her Brother—The spiteful things don't say that to your face, do they?

CURED HER CHILDREN.
Girls Suffered with Itching Eczema—Baby Had Tender Skin—Treated on Cuticura Remedies.

"Some years ago my three little girls had a very bad case of itching eruptions formed on the backs of their heads which were simply covered. I tried almost everything, but failed. Then my mother recommended the Cuticura Remedies. I washed my children's heads with Cuticura Soap and then applied the wonderful ointment. Cuticura. I did this four or five times. I can say that they have been entirely cured. I have another baby who is so plump that the folds of skin on his neck were broken and even bled. I used Cuticura Soap and Cuticura Ointment and the next morning the trouble had disappeared. Mme. Napoleon Duceppe, 41 Duluth St., Montreal, Que., May 21, 1907."

The Flatterer.
"The tramp had applied to the farmers' wife for assistance. "You have a beautiful voice, lady," he said. She looked interested. "Have you, my'mam? I'd rather hear you say no, lady, than most other women say yes."

Then she took back the dog and gave the wanderer half a loaf and a chunk of cold beef.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. It is the only method that reaches the diseased portion of the ear. When the ear is diseased, it is necessary to use a perfect hearing, and when it is entirely sound, deafness can be cured. The only way to cure deafness is by using the only medicine that reaches the diseased portion of the ear. The only way to cure deafness is by using the only medicine that reaches the diseased portion of the ear.

WEDDED BLISS.
Salesman—You ought to have a talking machine.
Mr. Grouch—I have. I married it.

Damage Done by Rats.
"The western farmer is waking up to a realization of the fact that he is, as the agricultural department told him some time ago, losing not less than \$100,000,000 a year from rats," says J. H. Van Burden, a Milwaukee grain merchant. "It costs about 60 cents a year to feed a rat. We know this because we have bared them up and fed them as much grain as they would eat for a year. It is a conservative estimate to place our rat population at 150,000,000. About one-third of them live in the large cities, where they do not get so much grain."

REDUCED COLONIST RATES.

Cause for Alarm.
A young man had been courting a girl for nine years. "Jennie," he said, one evening, "I read the other day that in 50,000 years Niagara falls would dry. Jennie clutched his arm excitedly. "Why, what's the matter?" he asked. "Why, you promised to take me there on our bridal trip. Don't you think you had better be a little careful that it does not dry up before we get there?"

Heard at the Dramas.
Mrs. Rytet—John, how much time elapsing between the second and third acts?
Mr. Rytet—The program says six months, Marla.
Mrs. Rytet (aghast)—Six months, John? Lend me your watch! Why, then, your bookcase, cakes I left to rot will have gone clear through the roof by that time.

It is not claimed that Syrup of Figs and Blair of Seneca is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects, always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

The Santa Fe pays me a salary for doing this and incidentally for answering the questions asked by people who want to know. The information I give you may be depended on. I have been in Texas for many years and have had the most careful consideration of all the facts and issues you are very conservative.
