The Lucky Quarter.

Is the one you pay out for a box of Dr. King's New Life Pills. They bring you the health that's more precious than gold. Try them for headache, indigestion, constipation and malaria. If they displease you the price will be cheerfully refunded at the Barrington Pharmacy.

The Noiseless Shooting Iron.

Whether the startling new invention of young Maxim will change the conditions of warfare must remain a subject for guessing until tests are made by competent judges. For most purposes the modern high power army rifle possesses about all the advantages which could be claimed for a noiseless substitute. Smokeless powder makes a firing line practically invisible if the cartridges are properly sheltered, and the range is so great that bullets strike the enemy's column before the report of the volley is heard. The report which it causes discloses the direction of the hostile fire, but that can also be guessed from the flight of the missiles. That the noiseless gun will offer temptations. The report of an assassin's pistol gives alarm, and anyway the pistol itself turns up as a clue. The noiseless dagger is a teflate, and the use of it often has trouble in getting away from the scene before discovery. But a rifle which will send a bullet half a mile and more, giving no report and few of smoke, will place a fearful weapon in the hands of the king killers and the person with a private grudge is entitled to it. The Black Hand and all anarchists will surely bless Hiram Perry Maxim if his noiseless gun proves to be the real thing.

Within the past year timber to the value of \$200,000 has been sold from a forest tract in Ireland which was planted fifty years ago. Four times as much labor has been employed on this tract as would be needed for agricultural tillage on the same soil, and the timber venture has proved more profitable to the estate than any other investment.

When the dash of Florida goes for an automobile ride he gets into a humble horse drawn vehicle at the rear of the procession and scurries his admiring subjects through dramatic hoofs. So the highly pointed gasoline chariot in which he is supposed to be sitting. Yet it is said that the dash is effective.

The Russian press is now demanding the trial by court martial of General Kurapatkin. Having failed to whip the Japanese, Russia evidently desires to demonstrate her ability to speak her own generalia.

According to a fashion note, "Easter hats will be smaller this year." In that case the average woman will have a still harder time convincing her husband that she got her money's worth.

A critic of Bernard Shaw says he is either wrong or right. That seems to be the general opinion of those who have read his works, but they didn't know how to express it.

About the time that both men and women are satisfied they are getting their rights predictions of the world's end will be taken seriously.

Instead of going out of business at the age of sixty, Mr. Hartman is still daring his enemies to come in and put him out.

Any speech that did not happen to get a chance on Washington's birthday will do just as well for the Fourth of July.

It looks as if any fighting would be about rather than by our navy.
