To man she gave in that gross hour
 Then what, oh woman, what for that
 'Twas left in nature's treasury?
 She gave the beauty, mightier far
 Than all the 'pans and power of war,
 'Twas woman in her conquering hour,
 'Twas she that laid, mankind down the
 Earth and a world is weak before that
 'Thomas Moore, "Ode of Anacreon."

(Continued from First Page)
 they are growing up and they will
 then behave when they go out in the
 world. You judge people by their
 manner of carrying themselves in
 public. Some of the dear, little
 "Bubbles" were Barrington boys who
 got out in the morning with nicely
 shined shoes, clean white collars and
 with a toss of their heads. If these
 fellows were what they think they are,
 if they know one tenth of what they
 think they know and had one tenth
 of a grain of common sense in their
 craniums, they would know how to
 conduct themselves and be respectable.
 Some of them had been nipping freely
 at something that could not have been
 "pure cold water" for they were noisy
 and disturbed those inside. But what
 can you expect of young men who
 don't know any better? A great deal
 "yellow and spidy things" could be
 said. "If the cap fits, put it on."

Good For Everybody.
 Mr. Norman R. Coulter, a prominent
 architect, in the Delbert Building, San
 Francisco, says: "I fully endorse all
 that has been said of Electric Bitters
 as a tonic medicine. It is good for
 everybody. It corrects stomach, liver
 and kidney disorders in a prompt and
 efficient manner and builds up the
 system." Electric Bitters is the best
 spring medicine ever sold over a drug-
 gist's counter; as a blood purifier it is
 unequalled. 50c. at the Barrington
 Pharmacy.

 world. I use it too with great success
 in my veterinary business." Price 25c.

No Use To Die.
 "I have found out that there is no
 use to die of typhoid as long as you
 can get Dr. King's New Dis-
 coveries," says Mrs. J. P. White, of
 Rushboro, Pa. "I would not be alive
 today only for that wonderful medi-
 cine, loosens up a cough quicker
 than anything else, and cures lung
 disease even after the case is pro-
 nounced hopeless." This new, reli-
 able remedy for coughs and colds, la-
 grippe, asthma, bronchitis and hoarse-
 ness, is sold under guarantee at Bar-
 rington Pharmacy, 30c, and \$1.00.
 Trial bottle free.

Suppressing Rats.
 No society has ever been organized
 for the prevention of cruelty to rats,
 but the rat family has enjoyed a cer-
 tain amount of protection due to the
 indifference of people exposed to their
 ravages combined with their persist-
 ence in surviving. Man now and then
 kills a rat or two and imagines he has
 exterminated a family, but every rat
 breeder brings forth forty to fifty
 young each year, and the breeders be-
 lieve young. Since science has proved
 that unfruitfulness is only a part of
 the human race it seems to be time
 to engage in a general crusade against
 this pest. Disease we are told is
 spread by rats.
 A recent bulletin issued by the govern-
 ment sets forth the difficulties of
 exterminating rats. The chief reasons
 are that they breed so rapidly and live
 on refuse. It is the refuse which keeps
 them alive, and perhaps one way to
 destroy the pests would be to abolish
 refuse. It is noted that rats de-
 spite premises abandoned by man and
 invade the nearest home where there is
 life. It might be possible to by com-
 bined effort among neighbors to make
 every place a barren desert in so far
 as sustenance for rats is concerned.
 The danger for rats lying around
 loose is concerned. The danger they
 are the more ready to venture into the
 baited trap and tackle the poisoned
 "hartung carbonate" or "barytes." In
 proportion of one to seven parts of
 oatmeal, as safe and effective "death
 on rats."
