Chicago Record-Herald: Ambassador Hill will continue to amuse the czar.

All in favor of apple dumplings please rise, says the Baltimore Sun. The eyes have it.

Men will have to buy the domination of the air with blood. That was how the land was won and the sea.

And now comes the pickin' further to divert attention from the game of saving the country.—Boston Herald.

No one objects to the directors go provided it does not look as if the lower part of it had caught on a nail.

"No woman who wears a 'rat' shall become my wife," says an Ohio college professor. Rough on rats, for sure.

Esperanto, of course, is not a dead or even a dying language. Its "rattling in the throat" is an artificial illusion.

A Chicago princess who is stranded in Paris finds it is mighty little in the way of groceries that she can buy on her title.

We are worried about where they are going to put the gasoline stations for these new air machines.—Atlantic Constitution.

The Russian minister of commerce is named Shiloff. It is to be hoped for the trade of the country that he lives up to it.

Keir Hardie advises Americans to "go into politics." They do. But not like a flock of silly sheep with some agitator for bellwether.

"Tats no longer are worn in the hair," says a woman's magazine. No, they seem to have been supplanted by those little rows of mice.

It is hard to tell which tastes better, the first piece of fancy, juicy, spicy, starchy mutton pie in the fall, or the first cucumber in the spring.

Probably that Milwaukee hermit who refused to wash for eight years was not a teetotaler and consequently did not want to encourage any undue intimacy.

Of course plants are capable of feeling. Isn't the corn ears to hear and the potatoes eyes to see? Haven't you heard the trees moan and seen the rose blush?

An insurance man says there are 15,000 women in New York who are past 75 years of age. This is not surprising; there are lots of chorus girls in New York.

Flowers may have memories, but as long as the corsage bouquet and the home-made pie in the fall, or the first cucumber in the spring, it is hard to tell which tastes better.

A man in Des Moines buys his mother-in-law five pounds of candy every week. The scheme should work and is safer than the slow poison plan.—Detroit Free Press.

Now that the North cape's cliffs have been desecrated by the brushes of the advertising painters we almost wish that Peary would never give them a chance at the north pole.

A perfectly good imitation of a Carnegie hero medal is offered to the man who has read all the political platform, speeches of acceptance and campaign books.—Louisville Courier-Journal.

"Auto-suggestion" is receiving considerable attention from scientists. Did you ever catch the monologue of the man on his back in the dust trying to coax the machinery of one of the morning go-devils?

An up-to-date farmer in Connecticut insists on having a flying machine clause in his insurance policy, arguing that flying machines are quite as much uncertain as tornadoes, for you never know when or where they are going to strike.

A Philadelphia friend alleges that she went through a most curious marriage with an American for the purpose of keeping her parents from purchasing a foreigner with a title for her. We can hardly believe her story is true, because it is reported that her mother has forgiven her.

The government is going to lay a molasses road in Massachusetts. That is, it will prepare a binder for madam roads the base of which will be the residue of sugar-cane manufacture, a by-product for which there is at present no known use. But isn't there some danger that the small boys and girls will carry off the road for all-day suckers or some other terrible thing?

The dahlia is coming to a place of honor in the floral world. Last year a special display of this flower was made in Indianapolis and exhibitions are now in course of preparation in eastern cities. The dahlia is a stiff, formal blossom, with no sentiment connected with it, but it has many rich colors in a variety of shades. There are said to be 500 or more known varieties of the dahlia, and it is easy to produce new specimens both professional and amateur florists are fond of experimenting with it. A dahlia fad is impending.

THAW SENT BACK TO ASYLUM

RETURNED TO MATTEWAN BY ORDER OF JUSTICE MILLS.

Trial by Jury Is Denied—Counsel for Prisoner Refused to Submit Evidence of His Sanity.

White Plains, N. Y., Harry K. Thaw will remain in the state hospital for the criminal insane at Mattewan, N. Y., until the court of appeals shall decide whether he is entitled to a hearing before a jury to determine the question of his sanity. Justice Mills of the supreme court refused a week or two ago to grant the application of Thaw's counsel to bring a jury trial on the sanity question and decided to hear the case himself. The hearing was fixed for Monday. When Thaw was brought into court his mother and several relatives were present.

The prisoner's counsel again moved for a jury trial, and when this was denied asked that Thaw be discharged from custody on the ground that the jury in the last trial for murder did not find him insane. This, also, was denied. Thaw's counsel then declared that he had appealed to the New York state court of appeals from the decision refusing a jury trial and that until the higher court had given a decision they would submit no evidence on the question of Thaw's sanity.

Justice Mills said there was no other alternative than for Thaw to be returned to Mattewan asylum, and he was ordered to be returned to that institution.

District Attorney Jerome of New York, who made the case from the case when Justice Mills refused to transfer it to New York, did not appear in court Monday.

As soon as the judge had ordered Thaw sent back to Mattewan an order citing him to appear in Pittsburgh forthwith was given to the United States court in the bankruptcy proceedings brought against him there was served upon the prisoner. It is not known what action will be taken in this matter.

An order committing Thaw to Mattewan asylum was issued by Justice Mills in the afternoon and he was taken back to that institution. Dr. Baker, acting superintendent of the asylum, said he would produce Thaw in Pittsburgh if he were served with an order to that effect.

POCKETS FULL OF DIAMONDS.

St. Louis Negro Arrested for Big Jewelry Robbery in June.

St. Louis.—Foster, George, colored, was arrested at 2214 Pine street late Monday afternoon on a charge of stealing diamonds and jewelry exceeding in value \$10,000 from the store of a wholesale jeweler at 150 Broadway, New York.

When Foster was searched by the police \$200 worth of unset diamonds were found on his person, as were also \$1,000 worth of diamond jewelry and \$500 worth of watches. The jewels were scattered over every pocket of his clothing, and many were stowed away in a razor case. George denied that he had stolen the gems and said that he would be tried in him by an employe of the Grand Pacific hotel, Chicago.

The valuables were stolen, it is said, from Mr. Powell while he was on a train coming from Chicago to St. Louis on June 29. George has been a dining and sleeping car porter. He said that he had pawned some of the jewelry in Kansas City, and many pawnshop tickets were found in his clothing.

Japanese Slaughter 22 Koreans.

Seoul.—It has just been learned that 22 members of the "Ichihai," the pro-Japanese organization of Koreans, were killed by Japanese gendarmes at Chohado a few days ago. The affair has been kept quiet, but has occasioned much uneasiness because it would be considered as a needless slaughter of unoffending Koreans by the Japanese soldiers and calculated to confirm previous reports of unnecessary cruelty practiced by the Japanese in Korea.

Killed by Canada Indians.

Winnipeg, Man.—It is reported here that James Oliver Curwood, the well-known author of Detroit, Mich., who recently went into the Hudson Bay wilds for a Detroit publishing firm, has been killed by Indians in the Lac Seul Range country. Details are wanting, but the trader who brought in the report says that the Lac La Ronge Indians had conspired to murder Curwood by shooting one of them.

SUPREME COURT AT WORK

JUSTICES ALL PRESENT WHEN THE TERM IS OPENED.

First Day Given to Formal Call on President—Calendar Is Unusually Large.

Washington.—After a recess of more than four months the supreme court of the United States resumed business Monday and will continue in term until next June. All the nine justices have returned from their respective summer homes, so there was a full bench on the first day of the sitting.

As has long been the court's custom, no business beyond making a formal call on the president was transacted Monday. This call is one of the four most formal ceremonies occurring in Washington official life. Immediately after convening at noon the justices were ordered and accompanied by the clerk of the court and its marshal, the court as a body proceeded to the White House, where all the members met the chief executive in a formal and official manner.

The ceremony concluded, they returned to the capital and dispersed for the day. A large attendance of attorneys is expected on Tuesday and many motions and petitions will be presented. With these disposed of the court will proceed to the hearing of arguments in the cases on the docket.

The court will begin business with a large calendar that it has had at the beginning of a term since the passage of the court of appeals act. At the close of business Saturday there were 572 cases on the docket as against 458 cases at this time last year. A majority of the cases came over from last term, but the number docketed during the recess exceeded those docketed in the recess of 1907 by 18. This indicates a growth in the business of the court despite the fact that it has lost one of its members to hold it down.

MIDSHIPMEN TO BE DROPPED.

Twenty-Four Annapolis Students Fall to Pass Examinations.

Washington.—As a result of the September examinations at the United States Naval academy, 24 midshipmen were dropped from the rolls. At the regular examination in May last 42 midshipmen were found deficient and were informed that they would be re-examined in September at the conclusion of the regular summer cruise in order to give them an opportunity to complete their studies. All but the 24 were passed.

Bad Fire in Florida Town.

Pensacola, Fla.—News of a disastrous fire which swept over Carrabelle, Fla., a small town east of Pensacola, was brought to this city Sunday by the steamer Tarpon. The cause of the buildings destroyed were the United States customs house, post office, freight and passenger depots.

"CZAR" ENTERS SOFIA

BULGARIAN CAPITAL WELCOMES PRINCE FERDINAND.

DIPLOMATS TAKE NO PART

Turkish Warships on Their Way to Samos—England Consents to General Discussion at Coming Conference.

Sofia.—Ferdinand, the "Czar of Bulgaria," made his entry into the capital Monday afternoon and was given a demonstrative reception by all the classes. He entered the city on horseback, accompanied by a brilliant staff, amid salutes from the artillery. He was welcomed by the municipal authorities at a triumphal arch erected at the end of the main boulevard. He later made his way to the cathedral where the metropolitan of Sofia and other high prelates officiated at a mass. The entire city is profusely decorated in honor of the visit, and crowded with people. After the mass the prince reviewed the local garrison. None of the members of the diplomatic corps was present at any of the functions.

Turkish Vessels on Way to Samos. Saloniki, European Turkey.—The Turkish cruiser, Metelich and three torpedo boats arrived here Monday and proceeded on their voyage to the island of Samos. Samos lies about 10 miles southwest of Smyrna, which is in Asia Minor. It is the nearest Grecian island to the Turkish coast and pays an annual tribute to Turkey.

Paris.—The Sofia correspondent of the Temps warns his readers against placing too much reliance on the specific assurances emanating from Bulgaria. He says the enthusiasm of the people is very great and that Prince Ferdinand has had tremendous ovations wherever he has appeared. The cabinet would prefer to go to war to have Bulgaria's independence questioned. There are to be no negotiations under arms. The minister of war is confident that a Bulgarian army could reach Constantinople before the ships could pass the Bosphorus or before Russia could block the way at Burgas.

England Voids a Point. London.—M. Iswolsky, the Russian foreign minister, has succeeded in impressing upon Sir Edward Grey, the British secretary for foreign affairs, the necessity that not only should the conference of the powers be held to settle the crisis in the near east, but that this conference should take under advisement other questions besides those involved in the annexation by Austria of Bosnia and Herzegovina and the declaration of Bulgarian independence.

This change of front on the part of Great Britain, which has caused great surprise, was announced by the foreign minister at a meeting of a conference between Sir Edward Grey and M. Iswolsky after a meeting of the cabinet in the morning, at which Sir Edward set forth the position he had taken and explained the views of the Russian foreign minister.

With this object in view, the skupshtina will support the government to the fullest extent."

The action of the kidneys was a marked characteristic. I began using Doan's Kidney Pills and the result was remarkable. The kidney action became normal, the backache ceased, and my health is now unusually good."

RHEUMATISM PRESCRIPTION

The increased use of whiskey for rheumatism is causing considerable discussion among the medical fraternity. It is an almost infallible cure when mixed with certain other ingredients and taken properly. The following formula is effective: To one-half pint of good whiskey add one ounce of Tonic Compound and one ounce of Syrup Sarsaparilla Compound. Take in tablespoonful doses before each meal and before retiring.

Tonic compound is a product of the laboratories of the Globe Pharmaceutical Co., Chicago, but it is as well as the other ingredients can be had from any good druggist.

Even to China Land. The equatorial waves has reached the shores of China, and it is reported that a number of wives in Canton have left their husbands, saying that they will no longer be subject to them. The wives have had the worst of it, however, as the law gives power to imprison them, and they have had to suffer the consequences of their rash resolves.

An Inopportune Query. "For whom do you intend to vote at the next election?" "I dunno," answered Farmer Corbett. "I've got too much work of my own just to attempt to mix into this rivalry for foreign government jobs."
