How Is Your Digestion?
Mrs. Mary Darling of No. 228 8th Ave., San Francisco, recommends a remedy for stomach trouble. She says: "Gratitude for the wonderful effect of Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bitters is the best remedy on the market today." This great tonic and alternative medicine invigorates the system, purifies the blood and is especially helpful in all forms of female weakness. 50c at Barrington Pharmacy.

Now there is talk of a sausage truck.
Blaze—No danger of that. Any trust in a sausage would be impossible.

An Inconistency
There is a way to travel. And yet remain at home—It really is quite possible—Just use the telephons.

The Exact Spot.
When illicit distilling was common in the highlands there was an old man who went about the country repairing whisky pots.
The gauger met him one day and, surmising that he had been doing repairs at no great distance, asked what he would like to inform him (the gauger) where he repaired the last whisky pot.
"Oh," said the old man, "abell'st shut tak' hauf a crown."
"Denz!" retorted the gauger. "Here is your money, but be careful to tell me correctly."
"Oh, abell'st no! tell the gentleman a lee."
Getting the money, the old man quietly remarked:
"I about mended the last whisky pot where the bo's was."—London Spare Moments

Wise—You really should be more economical.
Gaffer—Oh, I will be some day.
Wise—I should say so! You'll have to be some day.
Gaffer—Oh, right. If I have to be, why, then, I won't mind it so much.

Toll Traffic Increases
It is a notable fact that the telephone toll business increases during hard times. This demonstrates the value of the toll service in saving money as well as time in making a trip to Chicago. Chicago Telephone Company.

Of thirty-five flags shown in a "flag of all nations" supplement to a London weekly in 1898 eleven have disappeared, and among these are the flag of the company, the Ionian Islands, Tuscany, Naples, the states of the church, the Italian-American company and Sardinia.

Bankrupt
To avoid insolvency the merchant of today must be a deep student of business economy. Over the long distance telephone lines he may order goods from the Chicago wholesaler, thus saving expenses of travel and time lost in making a trip in person. Chicago Telephone Company.

Miss Mayne (on vacation)—Oh, sister, it's a luxury to have nothing to do but just loaf in a hammock with my precious Shelley or even the "Vicar of Wakefield" Literary Relative—Child, if I hear of any more such conditions I shall write to your mother!—Chicago Tribune.

Evolution in Travel
First—Walking
Second—Stage-coach
Third—Railroad
Today—By Telephone. For economy, speed and comfort it exceeds all others. The most convenient way to visit Chicago. Chicago Telephone Company

Young Lady—I should like to embrace a nice pair of slippers as a birthday present for my aunt. Shopman—Yes, happens to be quite out of new patterns just now. Wouldn't something else do as well? Young Lady—Perhaps a cigar case.—Stray Stories.

Seven Years of Proof.
"I have had seven years of proof that Dr. King's New Discovery is the best medicine to take for coughs and colds and for every diseased condition of the throat, chest and lungs," says W. V. Henry of Panama, Mo. The world has had thirty-eight years of proof that Dr. King's New Discovery is the best remedy for coughs and colds, la grippe, asthma, hay fever, bronchitis, hemorrhage of the lungs, and the early stages of consumption. Its timely use always prevents the development of pneumonia. Sold under guarantee at Barrington Pharmacy, 50c and \$1.00. Retail bottle free.

Audience Dazed.
The audience was raving for the actor.
"Shall I sing?" cried the hysterical near soprano.
"No," replied the manager. "It would only add to the terror."
Late on it was learned that all of the eleven people in the auditorium had reached the sidewalk in safety.—Cleveland Plain Dealer.

Combine For Good Roads.
Minnesota (Minn.) teamsters and motorists have joined forces in an effort to secure better roads. The Minneapolis Teamsters' union and the Minnesota Automobile club having decided to go into politics to secure good highways. The plan is to work and vote only for alderman candidates who will pledge their aid to the good roads cause. Theodosius W. Wright, president of the Minneapolis parks, has been elected the first honorary member of the Automobile club, and he is expected to help the movement.

Roads and the R. F. D.
Notice is being sent out from the postoffice department to urge rural communities that unless roads are repaired and placed in condition for uninterrupted service during the year the rural service will be discontinued. This is work for good roads that will doubtless have a wide and wholesome effect, says the Atchison Globe. The rural mail service has become so much a part of the farmer's life as to be regarded as a necessity, and he feels it likely to let it lapse for the sake of a little time and energy needed in rural building.

Notice to Creditors.
All persons having an account against Garret Frey, deceased, are requested to present the same to the undersigned at once for payment.
JOHN FREY.

Watched Fifteen Years.
"For fifteen years I have watched the working of Bucklen's Arnica Salve and it has never failed to cure any sore, boil, ulcer or burn to which it was applied. It has saved us many a dollar," says A. F. Harstay, of East Wilton, Maine. 25c at Barrington Pharmacy.

Get Fat in Hospital.
Everbody said they never heard of such a thing as a person getting so fat when down up in a patient's cast that the old cast had to be taken off and a new one fitted on to give the patient a chance to grow. But the doctor declared that the occurrence was by no means phenomenal. Many illnesses do not result in emaciation, especially down in this part of town," he said. "Scores of poor fat patients that are brought to the hospital in a skinny condition take on flesh amazingly while under treatment. This is especially noticeable in the case of an accident where a plaster cast is necessary. Then the arm, the leg, the body even, that is thus increased in size at the hospital fare until the patient is in positive pain from the pressure and has to be relieved with a larger cast."
—New York Press.

No Need to Climb.
It was a very wet night, and the last omnibus was full inside when the conductor asked, "Will any gentlemen ride upon the top to oblige a lady?"
There was no response, so the inquiry was repeated. But again there was no reply.
At last one of the male passengers remarked, "Are you sure she is a lady and not a poor woman?"
"Oh, yes, she is a lady," said the conductor without hesitation.
"A well dressed lady?" again asked the passenger.
"Yes, a thorough, well dressed, fashionable lady," said the conductor.
"Then I should think she is a fellow to take a cab home," said the passenger.—London Mail.

GOOD ROADS IN ENGLAND.
W. H. Moore Says the United States Should Follow British Example.
W. H. Moore, president of the National Good Roads association, writing to the editor of the Kansas City Star, says:
The finest examples of perfect, easy and durable roads I have found in all the British Isles are the Warwick road from Leamington to Warwick castle, about two and a half miles; the Kenilworth road from Leamington to Kenilworth castle, five miles, and the Stratford road from Leamington to Stratford-on-Avon, ten and a half miles. These roads are about four rods wide between fences. The traveled or improved portion is twenty-two feet wide between grass edges.
All these roads have horse paths on one side. Some of these are carefully prepared with stone averaging from two to three feet deep, the top surface being earth. The paths on the side, which are two or three feet from the main road, average about five feet in width. No material has ever been nor ever will be found more suitable to horses' feet and to the horses than the common earth surfaced roads. These roads referred to receive careful and constant attention.
In the early season, May or June, they receive an application of coal tar product. This is impervious to rain and dust. The very best interests of the people of the British Isles socially and commercially are conserved by the splendid system of public roads. If the great array of politicians in the United States who are making grotesque speeches and will candidates for municipal, state and federal offices should confine their campaigns to the subject of good roads and when elected go after the question in earnest, they would soon accomplish the greatest good in their generation. Every county can afford good roads.

Price Making.
Success has not come because our prices were always lower. But because AT THE PRICE we offered the highest possible QUALITY. Low price (of itself) means nothing. Only the goods themselves tell whether or not you are getting a bargain. That is why we want to show you what we have and are not afraid of the result.
