DR. CHARLES OTIS DEAD

Esteemed and Respected Citizen Has Gone to His Reward.

After weeks of intense suffering Dr. Charles Otis died early Wednesday morning, November 18th, shortly after 4 o'clock. Death brought relief to the gentleman which all medical science and solatation could not grant him, and while relatives and friends mourn for him, still they feel the blessedness of the peace that is his.

Dr. Otis became ill last March and was advised to enter a hospital for treatment. A cancer of the leg was discovered which had never been apparent. During two periods at the hospital he was operated on four times. Since August he has been at home, helpless and in great pain. The long strain was almost beyond endurance, but the doctor was heroic in suffering.

May 31st, 1841, Dr. Otis was born on the old Otis farm at Barrington Center, son of the late William and Lavinia Edmonds Otis. He was one of seven boys and was one sister. His boyhood was passed in the country and his education received at district schools.

In early young manhood he enlisted for service in the civil war, going from Hatavia, where he was working, to Chicago and joined Taylor's First Illinois battery. For four years he was in active fighting, participating in many of the biggest battles, but was never wounded.

After the war he worked in Chicago as bookkeeper and then as a dental assistant, where he gained the practical knowledge of dentistry that he practised for many years here, having received a state license giving him the title of doctor.

In 1872 he came to Barrington and on November 26th, 1873, was married to Miss Anna Dearlove who was raised here and has always lived in the present Otis home on Lake street. They were parents of four children, all living, who are Mrs. Albert Robertson and Mrs. William Cannon of Barrington, George Otis of Chicago and Mrs. John Arnold of Des Moines, Iowa. Mrs. Eliza Sprague of Elgin; Jefferson Otis of Forest City, Iowa; George Otis of Chicago; Jerome Otis of Winnemucca, Nevada and Eugene Otis of Hanks, are brothers and a sister living.

Dr. Otis was member of the local G. A. R., having transferred to this post from George H. Thomas post, Chicago, about a year ago, and member of Lambony lodge, A. O. F. and A. M., Barrington.

The funeral will be Friday afternoon at two o'clock at the home. Members of Taylor's battery, Chicago, and the Masonic lodge will conduct the service.

PILGRIM PARTY.

Pretty Thanksgiving Entertainment For the Children.

A pilgrim party was primarily intended to amuse and instruct the children, but every member of the family entered eagerly into the spirit of the occasion and welcomed the children in the costume of that period.

The girls wore the quaint pilgrim costume made of simple material, with the kerchief, cuffs and cap, while the boys were attired in the picturesque tall hat, sack, cuffs and collar. The hats were made from pasteboard or buckram, covered with cloth, and there were gorgeous buckles fashioned from cardboard, covered with tin foil, some of them studded with glistening colored beads.

The rooms, excepting the dining room, which had been converted into a bower suggestive of the long ago, were simply decorated. Pictures of Dutch scenes and the pilgrims adorned the walls, and an old-fashioned grandfather clock ticked away in one corner, while old china and pewter plates and bowls were placed on cabinets and mantel.

The room was lighted entirely by candles in silver and brass candlesticks.

The table was covered with a white cloth. At each corner a silver candlestick, holding a white candle, without Bows and arrows, wood cans, spinning wheels and various other articles were artistically arranged about the room.

The menu consisted of sandwiches, a nut and fruit salad served in rosy checked apple and cream frosted by the hand of the pilgrims, a cornucopia of corn. When the children were seated, a manly little fellow at the head of the table stood and told in verse the story of the landing of the pilgrims.

After this the children, and the older ones as well, examined the quaint old pictures and read the patriotic stories, closing with "America."—Alice Page Robinson in *Pilgrim*.

W. R. C. BAZAAR.

A Grand Success Socially and Financially.

A pleasurable and remunerative event of Wednesday was the Woman's Relief Corps' bazaar in the Baptist church social room, where it is estimated, that during the afternoon and evening a hundred and seventy-five people called.

Every member of the corps was instrumental in the success of this annual event, but the ladies on the various committees, who by active work and soliciting, brought in a net result of about \$85 into the treasury of the society, which will be used in local patriotic enterprises.

In general our merchants and citizens willingly responded to appeals for contributions.

The committees were: cashier, Mrs. Emily Hawley; candy, Mesdames C. Witt, G. Banks, G. Carmichael, M. Jukes and Miss M. Meyer; lace work, Mesdames G. Page and M. E. Bennett; Mesdames A. Sizer and J. Page; supper, Mesdames Prouty, H. Powers, Grunau, F. Hawley, Jencks, A. Lines, C. Hawley, S. Church, Dawson and S. Peck; reception, Mesdames E. Carr, L. Bennett and C. Collins; fortune tellers and grab bag, Mesdames Keeler and Houghton.

KILL VALUABLE COWS

The Tuberculin Test Verified in Impressive Demonstration.

Dean Russel Uses Knife and Talks.

Dean Davenport, at the recent tuberculosis conference at Urbana, told of the introduction of this disease among the University cattle by cows purchased from several dairy herds. It was revealed only by the tuberculin test. One animal, impossible to keep alive for the demonstration, had the upper part of her heart destroyed by tuberculosis. Three cows that had reacted to the test, but showed no other certain symptoms of the disease were slaughtered before an audience of farmers and students, and Dean Russell of Wisconsin college of Agriculture, in overall and apron, very quickly found typical evidence of the disease in lungs and liver and lymph glands of the throat, most impressively bringing home the fact that external appearances does not indicate tuberculosis, and making the audience familiar with the colonies, granules or yellow nodules and the open ulcers of this disease, and where to look for them. The facts were new to most present, and their remarks showed surprise and a desire to face the facts and act together to protect Illinois herds.

The lecture went on and questions were answered between intervals of using the knife.

The \$200 Holstein killed was six years old, and had calved a week previous, was in good flesh but showed a lump in the throat, and was wheezing. Her temperature had risen 4 degrees following the test. This lump proved to be an enormously enlarged lymph gland, "breaking down" with "open" tuberculosis and peculiarly dangerous for dissemination of the germs. A small tuberculous abscess was found in the liver; it was beginning to break down. The carcass would be condemned for meat and bogs would get the disease if allowed to eat it.

A Cowsey, 7 years old, whose temperature had risen 5 degrees following the test, was killed, and the bronchial gland, where the wind pipe separates into its branches, showed a typical case of "nodular" tuberculosis. The gland was much enlarged and contained a colony of yellow tubercles but they had not broken open to discharge pus. This cow might have gone right down after calving or she might have lived for several years. She was still all right for breeding purposes and the carcass would not be condemned.

The third animal showed the disease in a gland of the neck and in the lung tissue, the meat being unfit for use.—Illinois Farmer, Institute, per Arthur J. Hill.

TO CUT COUNTY EXPENSES.

Investigation Committee Appointed.

County Doctor Would Save Large Sum.

Chairman George Quantin, Supervisors John Sutherland, Alexander Robertson and W. E. Miller, who were appointed as a committee by the Lake county board of supervisors to devise ways and means of reducing the running expenses of Lake county, have just returned from a trip to neighboring counties. They will make a report of their findings to the board of supervisors at their December meeting.

It would appear from what the Waukegan papers have to say on the matter, after interviewing members of the committee, that about the only reduction that could be made is in the expense incurred in giving aid to the outside poor, that is, persons who are not inmates of the county institution at Libertyville.

From the same source we gather that the doctor's Lake county, for the year amount to nearly \$12,000.

It is safe to say that four-fifths of the expense incurred in this manner is in Waukegan and Lake shore townships.

The suggestion has been made that a county physician be employed to take care of patients residing in that district. We believe that this could be done at a saving to the county of perhaps \$5,000 per annum.

State Tax Rate 80 Cents

The reappraisal for taxation of the property in the state of Illinois has been completed and shows an increase of \$9,969,131 over that for the previous year. The committees of the state board of equalization have made their final reports. The total valuation of property in the state was found to be \$6,365,217,185 and the assessable valuation, being one-fifth of that figure, is \$1,273,043,437.

The state tax commissioners have fixed the state tax rate at 80 cents on the \$100 of assessable value. The rate fixed is the same as last year. The tax levy has been fixed at \$6,000,000, of which \$5,000,000 is for the revenue fund and \$1,000,000 for the school fund.

Thompson-Wiswath.

Mrs. Mary Wiswath and George Thompson, eldest son of Job Thompson, were united in marriage at the home of the bride's brother, George Wiswath, on the old Dodge farm west of O'Leck. Rev. O. P. Mattison of the M. E. church performed the ceremony in the presence of relatives and immediate friends of the contracting parties.

Mr. and Mrs. Thompson will reside in the Reynolds' cottage on North Hawley street.
