

NEWS OF ILLINOIS

Chicago. Joseph Dunham, 33 years old, said to be the son of the late Judge Dunham of Henry county, was arrested Wednesday and arraigned at the Harrison street municipal court on a charge of passing worthless checks. The prisoner's father is said to have been worth more than \$1,000,000 at the time of his death, but the son had received his share of the estate and left Geneseo, where the Dunham family lived, before the division of the property. According to the police, Dunham has been passing checks drawn upon his father's estate. One of the complainants against Dunham is A. W. White, a business man at 157 Dearborn street. White told the police that he knew Dunham in Geneseo and was easily induced to cash a worthless check for \$30. The prisoner's case was continued one week. The arrest was made by Detectives Folsom and Johnson of the central police station. Hannah & Hogg's salon, 230 Clark street.

Bloomington.—A surprising sequel to the efforts to punish Sherman Cass and Miss Anna Kelly, school teachers, who were accused of whipping the son of William F. Burke, a farmer, is the filing of a suit for \$10,000 damages against the two. For the benefit of the injured son. A year ago the father had the two teachers prosecuted on the charge of punishing his 12-year-old son. It was ascertained that his spinal column was so affected by the whipping that his head fell forward upon his breast unless supported by a hand. The case was retained a judgment for \$1,000 damages against the two teachers. Rather than pay it, Cass went to jail and served six months.

Chicago.—Purveys of grewsome scandals were given a body blow Thursday when a clean bill of health was awarded the Dunning Asylum for the insane by a special committee, consisting of five citizens and four members of the county board, appointed by President William Duane to investigate charges of mistreatment of patients at the institution.

PROVED BY TIME

No Fear of Any Further Trouble.

David Finch, Corydon, Ia., says: "I was in the last stage of kidney trouble. I could hardly walk and the kidney secretions much distressed. A week after I began using Doan's Kidney Pills I could walk without a cane, and as I continued my health gradually returned. I was so grateful I made a public statement of my case, and now seven years have passed. I am still perfectly well."

LAME BACK PRESCRIPTION

The increased use of "Toria" for lame back and rheumatism is causing considerable discussion among the medical fraternity. It is an almost infallible remedy, and when used with certain other ingredients and taken properly. The following formula is effective: "To one-half pint of good water add one ounce of Toria Compound and one ounce Syrup Sarsapilla Compound. Take in tablespoonful doses before each meal and before retiring."
Toria compound is a product of the laboratories of the Globe Pharmaceutical Co., Chicago, but it is well as the other ingredients can be had from any good druggist.

Optimist and Pessimist.

Abrley presented to a comedy society, entitled "The Optimist," which achieved success after the production, but was a long time reaching the stage. Miss M. W. Schulman, the manager, and one day Mr. Rosenfeld, whose patience was exhausted, blurted out to his sole auditor:

"Of course you don't appreciate the play! You don't even know the meaning of its name!"
"Yes, I do," protested the pessimist.
"Well," insisted Rosenfeld, "what's the difference between an optimist and a pessimist?"
The manager barely hesitated: "An optimist is an eye doctor," he said; "a pessimist is a foot doctor."—Sunday Magazine.

Why He Remembered.

By some accident of the social cards the clergyman and the dog fancier were at the same afternoon tea. The wandering talk unexpectedly revolved last into the question, "Who solved the 13 sons of Jacob? Even the cleric with the reversed collar had the names without error, from Reuben down to Benjamin.

The cleric's name looked surprised. "Oh, I'm not great shaker on Scripture," said the man with the fox terrier, "but those are the names which some chap gave to a dozen puppies I'm willing to sell."

Expert Pock-Picking.

An old lady was accosted in a London street by a dressed and redon street rascal, who effusively claimed her as a friend. "I really don't believe you remember me!" she exclaimed, reproachfully. The rascal, however, insisted that her memory was at fault, confessed that she could not recall the name. "Ah, but I have changed it since you saw me," said her interlocutor, gayly, and after a few more lively speeches he passed on, having possessed herself meanwhile of the old lady's purse.

CAUSE AND EFFECT

Good Digestion Follows Right Food. Indigestion and the attendant discomforts of mind and body are certain to follow continued use of improper food.

Those who are still young and robust are likely to overlook the fact that, as drooping water will wear a hole in a dam, so will the use of heavy, greasy, rich food, finally cause loss of appetite and indigestion.

Fortunately many are thoughtful enough to study themselves and note the principle of Cause and Effect in their daily food. A N. Y. young woman writes her experience thus: "I had been at last, so will be use of heavy, greasy, rich food, finally cause loss of appetite and indigestion. A friend advised me to try Grape-Nuts food, praising it highly, and as a last resort I tried it. I am thankful to say that Grape-Nuts not only relieved me of my trouble, but built me up and strengthened my digestive organs. But I stick to Grape-Nuts."

RECIPE FOR REAL TROUBLE

Charitably Contributed to an Already Unhappy World.

Trouble making is an older industry than the manufacturing of steel. Coda, the trouble maker, got into action before Tubal Cain, the iron worker; and Eve got Adam into hot water long before the Boiler Makers' union began business.

There are three kinds of trouble—imaginary, borrowed and real. Imaginary trouble consists of railroad accidents, earthquakes, fires, strikes, the poisonous death, and the grave, carefully mixed and taken after a late dinner, or a drop in the stock market.

Borrowed trouble is the kind we get from our relatives. Its principal ingredients are visits, borrowed money, birthday presents, advice and expectations. But the real article is produced as follows: Put the sandals of endurance on your feet, take your life in your hands and follow by turn the How-to-be-Happy Philosopher, the Franchiser of Physical Culture and the Apostle of Diet.—Pack.

TORTURED SIX MONTHS

By Terrible Itching Eczema—Baby's Suffering Was Terrible—Soon Entirely Cured by Cuticura.

"Eczema appeared on my son's face. We went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor for four months, but the baby never getting any better. His hand and legs had big sores on them and the poor little fellow suffered so terribly that he could not sleep. After he had suffered six months we tried a set of the Cuticura Remedies and the first treatment let him sleep and another set in one week the sores were gone and in two months he had a clear face. Now he is two years and has never had eczema again. Mrs. L. O. R. P. 3, San Antonio, Tex., Apr. 15, 1907."

Grown-Up Children.

It is not only the frivolous whom the spirit of childishness is just now leading astray. Stiffness is the fashion even among the wise, especially affect a kind of childish shrewdness in talking of serious habits. Like children who have the habit of romancing, young people are sure to be misled, and because they never talk exactly as they think they begin to think exactly as they talk.—London Spectator.

Nicks.
Harry Payne Whitney the day his own and other noted horsemen's racers were shipped from London on the Minnehaha, said of the death of racing in New York:

"A good many Jockeys have been hard hit. A Jockey told me last week a very and tale of misfortune. I listened sympathetically."

"Ah, Joe," said I, "when a man is down, few hands are extended to him. The Jockey as he chewed a straw, smiled bitterly."

"Few hands—yes—that's right," he said, "but think of the feet?"
