### Wants But One.

The city of Chicago does not want and will not submit to, competition in telephone service. It wants one service, and it wants that service the best, and it has full power to get and keep what it wants.

The proposal of the independent companies made to the city, for gas, oil and electric light, as reported in The Tribune of Friday, is in effect this: that we shall accept the confusion worse confounded of telephone competition within the city and receive in compensation the privilege of long distance service with independent systems outside of the city.

The bargain deserves no consideration. It is worthless for two sufficient reasons. First, the maintenance of two telephone systems in the city will not be tolerated for a moment. As other cities know, it is a nuisance without a redeeming feature. It is beyond reason even in money, time and patience. The business community would not tolerate it and the great mass of telephone users could not afford it. The telephone is not only a natural monopoly. It is an inevitable monopoly.

The community is already served by an extensive system which is first in the field, and perhaps for that reason in some sense deserving of such prior consideration as the public interest allows.

Meanwhile, the Illinois Tunnel Company has been unwilling or unable to develop its promised competing system—a most fortunate circumstance both for itself and the community.

The city has suffered too much, and it is still suffering from the costly confusion of our transportation systems. It is in no mood to be precipitated into a dilemma having even less justification or excuse. Unification of public service under wise and thorough regulation is the watchword of our time. There is no field where it is so plainly true as in this of the telephone, and the Illinois Tunnel Company's franchise problem must be solved on that principle.—Chicago Tribune, December 12, 1903.

### Bitten By Mad Dog

Herman Sandman, 15 year old son of Fred Sandman, of Ella street, was bitten by his pet dog Wednesday last week. The dog had been biting for a few days and was being kept in the basement. Herman went into the basement for some wood and the dog jumped at him, biting him in the leg. Mrs. Sandman applied arnica with a cloth on the wound, but thoughtlessly used the same cloth to bathe a scratch she had received on her arm by a fall. No attention was given to the incident until after the dog died last Monday night. George Froelich took the head of the dog to Chicago Tuesday and an examination revealed that the dog had been suffering with hydrophobia. Mrs. Sandman and son are taking treatment at the Pasteur Institute, Chicago.

### REVIEW

Chicago Opera House.

No one will wonder who sees the performance of "The Melting Pot" now running at the Chicago Opera House why the play is such a big enormous success and why it has taken such a firm hold on the affections of the amusement loving public of the city of Chicago. It is the triumph of a theme so large and simple that it has the quality of inspiration. America is God's crucible. In it are redned away all the dross of prejudice and oppression. Here even the Jew may forget his isolation and mix his life with that of other races and make of New Zion which shall be greater than the old Judea and a fulfillment of dreams rather than those of the most zealous, modern colonists. "The Melting Pot" is the striking dramatic success of the current season. Seats are now selling two weeks in advance. The attendance from out of town has been very large and special care is being taken by the management to give out of town theatre-goers an equal chance in the reservation of choice seats.

### The Woman Beautiful.

Beauty in face and form depends upon mental peace and contentment. Avoid the discomforts and troubles of traveling by using the long distance telephone. A rapid, pleasing way—and economical. Chicago Telephone Company.

### A Dangerous Operation

is the removal of the appendix by a surgeon. No one who takes Dr. King's New Life Pills is ever subjected to this frightful ordeal. They work so quietly you don't feel them. They cure constipation, headache, biliousness and malaria. 25c at Barrington Pharmacy.

For New Year's week the Majestic theatre, Chicago, has arranged a bill quite in line with that happy season and will start the year 1904 with an unusually entertaining array of vaudeville stars. ### Brotherly Love.

"Man's inhumanity to man makes countless thousands mourn." It is those outside the pale of the fraternal society who can quote that, as they do not profit by the true friendship which is given to one who has taken a place in the ranks of the fraternal institutions. Membership in an order which advances education, relieves distress, visits the sick room, buries the dead and cares for the aged and orphan is from the Supreme Being and doing the work commended by the Prince of Peace. "By their fruits ye shall know them" said the Master, and the leading secret orders are content to be so known.

An incident illustrates the spirit of brotherly love as practiced by Odd Fellows.

One of the members of our lodge has been ill and out of employment for a number of months. He has received sick benefits, but his brothers decided that this Christmas day should be a cheerless one for him. So tomorrow he will be presented with a purse of \$45.00 a gift from those who wear the same emblem, from those who practice the teachings of the Good Samaritan.

It pays to belong to a good fraternal order, whose object is to aid you when you are in need.
