Jeffersons and Millers Out in Front of Pack

The football game guests reached the house before their host, and Mary was just getting the doorknob out of its known hiding place, when David protested:

"Oh, yes, I know," she returned nonchalantly, "but the dog has a lame leg. He won't hurt us."

"Well," returned her escort, "I'm afraid he might bite us, not kick us."

2,200 Feet Into Sea

Dr. William Beebe of New York

New Ford to Be on Display in Local Garage Saturday

Attention will be on hand to explain the many important features of the new cars.

The new V-8 is the largest and most powerful Ford ever built. It has new and distinctive modern lines, a most attractive front end, longer, faster acceleration, increased power and speed and is exceptionally economical in operation.

The styling of the 14 body types expresses the new mode in motor car building. The modern note is found in the sloping Vee radiator grill, the curved fenders, newly designed mud-lamps, cover lamps and bumpers, the curve of the hood and radiator, the 20-degree slant of the windshield, the curved roof header, the reverse curve of the rear quarter and the back sweep of the apron making the gasoline tank.

The new all-steel bodies are made of steel, almost a foot longer and consequently much roomier. The attractive instrument panel is directly in front of the driver, with a large package compartment at the right side of the instrument board.

When the vicar of Edgeware, England, fell a victim of the flu and was unable to conduct services in his church, a police sergeant volunteered to act for him. Not only did he conduct the services as if he were thoroughly accustomed to the task, says the Montreal Star, but he gave an eloquent sermon. Many of the congregation thought he was a visiting parson.
