Bank Deposits Released

Edward J. Barrett, state auditor, announced this week that more than 200 state banks have been opened in Illinois since the banking holiday ended last Dec. 31, 1932. Barrett said, and approximately 30 percent of the deposits have already been released. All of the banks reported have been opened upon satisfactory conditions and the auditor believes that the public, particularly the confidence of the people, particularly in the banks, is being restored. He stated that the determination of the state will be allowed to operate.

Origin of Term "Jim Crow"

The origin of the expression, "Jim Crow," came from a popular negro song and dance that was known early as "Old Tom." Thomas D. Rice introduced it into a play called "The Life," by Solon Robinson.

Pluto, Ninth Major Planet

Billions of Miles Away

Pluto is the ninth major planet of the solar system, of the fourteenth and fifteenth magnitude. The existence of this body had been predicted in 1815 by the late Prof. Percival Lowell. Lowell's calculations were based on the erratic behavior of Neptune, which was then the furthest known planet; the discovery was made in March 1930, by Clyde W. Tombaugh, assistant at the Lowell observatory at Flagstaff, Ariz. The event created a sensation, and it was reported that scores of study would be needed to determine the facts. Scientists in scientific circles suggested that the body was a comet, or that its discovery near the predicted position should be regarded as accidental. It is stated that the orbit of Pluto is from 2,800,000,000 to 4,000,000,000 miles from the earth, from the orbit of which it is inclined 17 degrees. Calculated to be smaller than the earth, Pluto is invisible to most telescopes because it is not self-luminous and being perhaps the most distant object in the solar system, receives very little light from the sun.

Yucca Wood

In the Southwest, especially in southern California, the yucca as it is known, is a popular negro song and dance that was known early as "Old Tom." Thomas D. Rice introduced it into a play called "The Life," by Solon Robinson.

Bege's Biography

A golden gentleman will be remembered in Colonel Bege. According to report, he was born in England and derived his name from the song "Bege, here comes the bobby man!" He was then named by the secretary of the United States Golf Club, who a little later suggested that as all members of that club must be serving or retired officers, it was proper that the new layable member should have rank, and that he be a senior officer—hence the title "Colonel."—Boston Transcript.

What's this gadget?

he asked
sold him 4 new tires

The gadget is a little machine that shows the difference between ordinary cord and other tires, and **Supper**—that difference is in the strength and come-how much longer its life and elasticity. It takes about 3 minutes to tell the story—but as this customer said—"If every car owner could see that demonstration, there wouldn't be anything sold but Goodyear Tires."

Goodyear
