LESS THAN 3 CENTS WORTH OF GAS

COOKED THE STRAWBERRY JAM THAT

FILLED THESE 18 LARGE GLASSES

Have you ever wondered how much gas it takes to make strawberry jam? We measured it to see. And found that we used less than 3 cents' worth to cook 6 quarts of berries (2 quarts at a time) or enough to fill 18 glasses.

Strawberries are cheap. Sugar prices are down. No wonder a lot of strawberry jam is going to be made this year!
