A Hot Tip Why Wait Buy Now Before the Rise in Prices and Save Money

Sharp advances in the cost of many of the paper stocks and the certain increase in cost of other lines make it advisable for our customers to anticipate their printing needs...

The paper jobbers tell us that the advance is directly caused by President Roosevelt's program of increased salaries and the influence he is exerting upon the producers of raw materials in many lines aside from paper products.

This firm is not adverse to increased salaries for the working man, but in view of the resulting higher paper costs, a rise in prices for commercial printing will inevitably follow. We earnestly advise you to anticipate your needs for printed supplies and place your order now in advance of the price climb.
