MEAT, POTATOES and GRAVY

MANY a meal is built around these three stand-bys—meat, potatoes and gravy. Invariably they are the first dishes that come to your mind as you plan your dinner.

But in spite of their hunger-satisfying and nourishing qualities, this time-honored triumvirate can become monotonous unless it is supplemented by other dishes.

However, it is often a problem to find these "side dishes" in your own head. Of course you can quiz your neighbor, or ask the members of your family what they would like. But even this source of information is often lacking in ideas.

The thing to do is read the advertisements in The Review. Every week your local markets display their foodstuffs on those printed pages. You'll read of new vegetables and fruits that have "just arrived."

Your appetite will be aroused by the tasty creations of national food manufacturers. With pencil and paper you can plan your market list and menus before you step out of the house.
