You can't control the weather
But you can—if you have an automatic ABC Oil Burner control the temperature in your own home.
You can get the temperature you want—as you want it. And no shoveling coal, no ashes, no dirt. And economically, too.

WHY?
Have Your Furnace Cleaned.
Here Are the Reasons—
FIRES often start from accumulations of soot. Why risk your family's safety and your home?
HEALTH is imperiled by a furnace filled with soot and dirt. Have this menace removed today.
MONEY is wasted when soot and dirt prevents coal from delivering full heat-value. Clean and save.
DIRT fills the house and makes housecleaning an endless task when the furnace is not clean.
DUST cuts away your furnace in the summer when your furnace is not clean.
