A Telephone Call

When you leave town, if only for a day, remember to call home and notify the family of your safe arrival. You will be repaid many times over for the moderate cost of the call when you hear the voice of wife, mother or delighted youngster and know that they are safe

and well. Frequent telephone calls keep the family together and freeless of the miles which separate individual members. Rates for station-to-station calls are lower after 7:00 P.M. and lower still beginning at 10:30. The low cost of an evening call home will surprise you.

4 POINT COAL

Is GENUINE Mined in the very heart of the Pocahontas region

THESE FOUR POINTS WILL MEAN MONEY IN YOUR POCKET AND COMFORT IN YOUR HOME—

- 1 Low Volatile—LIGHT, fluffy ASH Smokeless. Points to a great advantage
- 2 High Fusion assures no clinkers.
- 3 Firm structure—no dirt or slack.
- 4 Free Burning—quick response to drafts.

4-Point Pocahontas burns to a light "fluffy" ash. This powdery ash is a distinct advantage, for it is a sure indication of the BEST quality a Pocahontas coal can possess... the quality of FREE BURNING.

"Free Burning" means that the coal burns without caking in the furnace. It requires no poking or stirring... yet... open the drafts, and it will respond, almost instantly, with a surge of heat! Use 4-Point and you'll find no unburned coal in the morning before the house gets warm. These light, fluffy ashes are easy to handle, too... the ash cans are so much lighter. And, of course, since this coal holds fire so well, responds to draft control readily and requires but little stoking, it reduces vastly the number of trips you make to the basement.
