

Attorney Outlines Value of PWA Loan for Sewer System

The following report, continued from last week's issue of the Review, was written by Village Attorney David B. Maloney and read at a recent meeting of the Barrington Village Board.

It seems to me that the approval of the application of the PWA loan for the sewer system is of great importance to the people of Barrington.

The means of local employment provided by this plan is of great importance to the people of Barrington. It will have to be a period of time before the PWA can be put into effect.

Flowage Rights and Easements

As has been mentioned in our discussion of these matters, I deem it absolutely necessary that flowage rights be obtained from the Northwest highway to the Fox River.

Acquiring the easement for flowage rights from the Northwest highway to the Fox River involves a very substantial amount of money.

We do not believe that the acquiring of this easement will be prohibitive in cost to the village for the reason that the creek bed for the most part in this area is a reasonable depth.

The chief difficulty with obtaining the entire route from the plant to the Fox river is that a large part of the creek between Northwest highway and the plant becomes stagnant in the summer time and the water stands in holes along the bank of the creek.

I have already advised the board that I believe it is absolutely essential that a municipality condemn flowage rights in water non-navigable for the purpose of flowage rights.

In the recent report of the civic advisory committee, it is stated that the controversy concerning the Gjelstad sewer and the Jewel Tea company outlet be settled before this improvement is constructed.

of great importance to the village. The settlement with Gjelstad and this outlet sewer are so intimately connected with the entire question of the sewer service for the Jewel Tea building that it is not practical to settle any one separately.

It will be, no doubt, difficult for the board to now place themselves in the condition of the parties some years ago when this transaction occurred.

While it is difficult at this time to appreciate the considerations influencing the actions of the party at that time, I am satisfied that we can at this time fairly ascertain all of the equities of the village and also of the Jewel Tea properties and of Gjelstad, and I am satisfied that we can at this time fairly ascertain the benefits of the respective parties growing out of the sewerage service which has been provided.

Fox River Grove Scout Drive Successful

The drive for funds to carry on boy scout activities netted \$156.50. Thirty-eight workers, members of the various organizations of the village, solicited. The evening preceding the close of the drive a dinner was served at Cernovsky's hall to the volunteers and to the officials of the Black Hawk area, including G. C. Driesback of Rockford and R. Ellis of Belvidere.

Mr. Driesback, scout executive, addressed the gathering, taking for his subject, "Scouting as a Community Builder." He explained how scouting turns late time into interesting time and trains boys to become law respecting citizens. Court of honor will be held next Wednesday night, March 20.

Sea Nettle Man's Enemy: Looks Like a Vegetable The sea nettle or Jellyfish which carries bathers along the Atlantic coast during the latter part of the summer is so far down on the scale of life that it is hard to think of as a living creature.

It is a jelly-like mass resembling an inverted cup, has long moss-like streamers attached to the lower rim and looks much more like a vegetable than anything else. The trailing tentacles are used as a means of obtaining food and can be stretched out and contracted at will.

Covered with tiny poisonous spines, they can inflict painful stings upon the bare skin of bathers, and once a fish becomes entangled in them he is lost. Completely paralyzed by the poison he is drawn into the mouth at the bottom of the cup-like body. While those usually seen about the bays and beaches are only a few inches in diameter, some of them attain a width of six feet and have tentacles ten feet long.

In spite of the fact that the creature's body is 90 per cent water such a size makes it a fearsome foe and it is possible for it to cause the death of humans. Pathfinder Magazine.

Picture of Love and Hate Conflict Features Saturday

The dramatic story of revenge that turns into genuine love is the underlying theme of the picture, "Behold My Wife," starring Sylvia Sydney with Gene Raymond and coming to the Catlow theatre for a Saturday showing only following the final appearance Friday night of the romantic triangle, "For a King and a Queen," which is going through a three-day run this week, starting Tuesday night.

New, cartoon, comedy and Owen dinnerplay in women pictures are added features for the Saturday night movie.

Film entertainment of exceptional merit is in store for local moviegoers with the showing Sunday and Monday of "Biography of a Bachelor Girl," screen adaptation of the Theatre Guild success, "Bachelor's Girl," which has been a top run on Broadway with Ina Claire in the starring role.

The photoplay version of S. N. Behrman's social comedy success, "When Ladies Meet," made this together for the second time Ann Harding and Robert Montgomery whose joint performances in "When Ladies Meet" made this together for the most delightful of last season's pictures.

Color, cartoon and comedy will complete the bill.

Request brings "Men in White" to the Catlow for Tuesday bargain night showing. It is an absorbing drama, co-starring Clark Gable and Mrs. Loy and is an effort to reveal the quiet heroism and nobility of which the hospital brigade is frequently capable.

Selected short subjects and news are added.

"Chu Chin Chow," the intriguing Gaumont British production, with its galaxy of beautiful girls, entrancing musical harmonies, fantastic dances of the mysterious East and bizarre narrative of cruel battles, love, romance, and golden treasure beyond the dreams of avarice, comes to the local screen Wednesday and Thursday.

The story is a 72% adaptation of the ever-popular libretto of "All Baba and the Forty Thieves," in which the powerful hand-chief, Abu Hassan, murders the rich merchant, Chu Chin Chow, and disguised as his victim, plots to plunder and kill the wealthy, avaricious Kasim Baba of Bagdad. The latter's brother, Ali, discovers the secret of the robbers' cave, crammed with treasure, where Kasim ultimately meets his death at the outlaw's hands. Haaga's plots are frustrated by the subtle arts of the Chinese slave girl Zahara, who lures the chieftain to his doom.
