Voters:
I have served you as a Village Trustee for the past four years. The other two candidates for President of the Board have served in that capacity and the records they have made are well known to the citizens of Barrington.
At times in the conduct of village affairs the technical advice of attorneys and engineers is necessary. However, it is my opinion that the final responsibility rests with the officials elected by the people. Public officials are elected by you people to take care of your public business and that job should not be delegated to appointed officers.
It is time to get the government of Barrington out of the hands of appointed officers and to get it back into the hands of Independent, Competent, Elected public officials.
I am also of the opinion, and my record on the board confirms it, that no financial burden should be imposed on you property owners without your consent.
I have lived in Barrington all my life. I own my home here and I am a taxpayer. I am an independent candidate and I rely on the community as a whole for my political support. I have not now, nor will I have, any job seekers working for me.
I have made no promises to any group or individuals and if elected I can and will serve you conscientiously and impartially as I have in the past.
I believe it is the duty of the President to see that village business is transacted in a business-like, economical and orderly manner. If this had been done in the past Barrington would not have many of the difficult and expensive problems with which we are faced today.
I urge you to check into the public records of myself and the other two candidates for President. You can then decide for yourself who is best qualified to serve you efficiently, conscientiously and unselfishly. I shall be content to rest my case on your fair judgment in this respect.
If elected I promise you my best efforts and that I shall so administer the office of President as to merit your continued confidence.
