VOTERS!

Next Tuesday, Apr. 16 is an important election day I am a candidate for Member of the Board of **Village Trustees**

Your vote is solicited and I want you to be one of my many friends and supporters. I promise if elected that you will not be disappointed when I am called upon for service, honesty and experience.

Your interests will always be conserved. Had the Village Board followed my suggestion when the sewer was installed it would have saved the taxpayers many thousands of dollars in useless litigation and the cost of a new sewer.

The records in the Engineering Department at Springfield prove that I was right and that that department also recommended a separated sewer to our Village Board at that time, but they did not follow this advice and now we have the result and expense.

Triple-Sealed Hydraulics—

the finest brakes money can buy

Because Pontiac knows that stopping is just as important as starting, the new Pontiacs have a special kind of brakes—big 12-inch hydraulics, smooth and even—powerful enough to bring any sized car to a quick stop. And Pontiac safeguards this fine action by triple-sealing the rear brakes, and double-sealing those in front, to bar out every grain of dust and every drop of water. You can trust Pontiac brakes in any weather. They are the finest that money can buy.
