

Award Diplomas to 345 Students in Lake Schools

Ruby Marie Boegen of Lake Zurich Third High in Scholastic Group

W. C. Petty, superintendent of schools in Lake county, announced that 345 students have been graduated from Lake county district schools at exercises held during the past week.

Ruby Marie Boegen of Lake Zurich was named as third place winner in scholastic awards. Lawrence Rouse of Mandelino was first and Helen Thompson of Hickory was second. Fifty students make up the list of honor roll students for Lake county this year. The above mentioned with Russell L. Mitchell, of Kelsey school, are among the 16 to receive Lindley scholarships. These scholarships entitle the holders to attend any state normal college without the payment of tuition fees.

A partial list of honor students follows: Maide Julia Bauer, Ruby Marie Boegen, Herbert H. Gehrke and Spencer J. Loomis of Lake Zurich and Russell L. Mitchell of Kelsey school.

Lake Zurich Boys Judge Livestock at Urbana Contest

Agriculture classes of Elia township high school headed by Wilbur Buddemeier, agriculture teacher, attended the state judging contest at Urbana from Thursday to Sunday.

Teams who judged are as follows: dairy judging, Earl Kane, Earl Grever and Leonard Carlson; fat stock, Henry Heinsdon, Parson Leland and Roy Hansover; grain, Norman Nehmer and Harvey Anderson; corn, Earl Shickling and Ray Wildhagen; chickens, Frank Cademaro and Norman Buechling.

Earl Grever won first prize in Holstein judging, Ray Wildhagen placed third in swimming and Norman Nehmer was seventh in individual all around judging.

Barrington Hills

Golden Day - Success - The Open Golden Day Saturday was a great success. It was not only one of the loveliest days we have had this spring but also every garden was at its best. Starting at the Park City station where maps were sold instead of tickets, more than 200 guests visited the twelve gardens open for inspection.

In State Tourney

The Woman's Golf team of Barrington Hills Country club returned from Springfield late Friday night. Mrs. H. Smith was runner up in the second flight and Mrs. Kenneth Knickerbocker was winner in the third flight. Monday they played the Westmontersland team at Glenview, making three points in the day's play.

Going to Camp

Among the youngsters who are going to camp this summer are Miss Joan Hilton and Caleb Cady. Joan left Wednesday night for Camp Hillaway at Hackensack, Minn. and Caleb leaves on the 28th for his second year at Camp Keowaydin, Lake Dunmore, Vermont.

To Open Pool

The swimming pool of Barrington Hills Country club will be officially opened Saturday. Built last year, it was exceedingly popular with members. Landscaping adds to the attractiveness of its setting while parolot-topped tables and var-colored, bouncing chairs provide comfort.

Mrs. H. Spencer Reno

entertained eight guests at luncheon Friday. Afterwards they played bridge.

Vall Hallberg

who is a member of the Naval R.O.T.C. at Northwestern university has left on a six weeks cruise with them. They will visit the West Indies and the Virgin Islands during their trip. The first of the informal dances was given at the Barrington Hills Country club Saturday night. Mr. and Mrs. Steve Kenyon entertained at a small cocktail party prior to the dance.

Miss Mary Grubbs

returned from her visit to Mrs. H. Falk in Milwaukee Monday.

Mrs. Ernest Spencer

with her mother Mrs. Kemp and two little

girls left last week to spend the summer at their camp near Rhineclander, Wis. Friends of Mrs. J. M. Macaulay and Mr. J. Mark Smith will be glad to hear both are better. Mr. Smith returned home Tuesday and Mrs. Macaulay Monday.

Mr. and Mrs. Morris Shurtleff, Miss Keat and Mrs. Macaulay and Mrs. Richmond Kenyon and Mr. and Mrs. Robert Hilton entertained at dinner parties in connection with the dance. A second informal dinner dance will be held at the club next Tuesday evening.

Cuba Township

Mr. and Mrs. Frank Kelsey motored to Algonquin Monday.

Mrs. August Meyer of Chicago is enjoying the week at her Shady Hill cottage.

Mr. and Mrs. John Jensen and Mrs. Eric Anderson and family of Chicago, are spending a week in Shady Hill.

Mr. and Mrs. Harold Kelsey were Wednesday evening guests of Mr. and Mrs. William Jahke. Carl Martin of Deerfield was a Thursday evening caller at the home of Mr. and Mrs. Oliver Fitts.

Emma Hager was a week-end guest at the home of Mr. and Mrs. Frank Lagaschulte.

Mr. and Mrs. Leo Riley and children, Lawrence and Frances, were Sunday evening callers at the home of Mrs. Henry Pepper.

Mr. and Mrs. William Jahke, Mr. and Mrs. Ted McCabe and family were Sunday evening guests of Mr. and Mrs. Harold Kelsey.

Mrs. Peter Paulsen and children, Mabel and Kenneth of Racine, enjoyed Saturday and Sunday with Mr. and Mrs. Frank Lagaschulte.

Mr. and Mrs. Myron Kelsey and children, Shirley and Betty of Chicago, enjoyed Sunday with Mr. and Mrs. Frank Kelsey.

Mr. and Mrs. Conrad Kraus, Myrtle Kirby and Ernest Petersen attended the centennial parade at Elgin Monday afternoon.

Mr. and Mrs. Leo Riley and son, Lawrence, motored to Marango Monday.

Mrs. Madama F. Kelsey, O. Fitts, O. Fitts, J. Wilson, J. Jackson, J. Bull, C. Olmstead, H. Arkerpohl, C. Kraus, F. Kirby, M. Kirby, O. Erickson, H. Kelsey, F. Lagaschulte, E. Pichen, W. Hifer, K. Schumacher and W. Rees attended the bongo party Thursday afternoon at the home of Mrs. Mary Schwemm.

Family Habits Handed Down

Hundreds of family habits are handed down not by physical or mental heredity but by "social heredity," notes a writer in the Detroit News. Ability to swim or play games usually well is largely due to physical heredity, but all healthy people play games passably well entirely from custom. Eating with one's knife or talking loud in depots and on trains or gossiping about neighbors runs in some families but fortunately is not inborn.

Marginal Land Defined

The National Land Use Planning committee defined marginal land as "land where the agricultural output just balances input, including a proper allowance for depreciation and interest on capital other than land and labor of the operator and his family." Submarginal land is that where output falls below the balance, and supermarginal land, that where output rises above."

Cut Next Winter's Heating Cost—

ORDER COAL NOW

Three Sound Reasons For Filling Your Bin Now:

1. June prices are usually the lowest of the year.
2. The extra 1 per cent sales tax will go into effect July 1.
3. The impending mine strike with possible tie-up of supply may affect the market, boosting prices further.

William Powell in 'Reckless' Sunday at Rialto, Elgin

Following three teaming experiences with Myrna Loy—in "Manhattan Melodrama," "The Thin Man" and "Evelyn Prentiss"—William Powell has been co-starring for the first time with Jean Harlow, in "Reckless," which opens at the Rialto theatre, Elgin, Sunday.

"Reckless," a lavish musical picture, was produced by David O. Selznick with Victor Fleming as director.

The cast includes Franchot Tone, May Robson, Ted Healy, Nat Pendleton, Robert Light and Donald Russell.

"I've tried to figure it out—why I should be treated so nicely by the picture public," he says, "but I've got me puzzled."

"It's true that I'm doing the best I can in my new picture roles, but I don't think I'm quite as good as I am supposed to be. It's a funny sort of philosophy for me to be expounding, but I always was known as Hollywood's biggest worrier, and I believe that there's a spark of an inferiority complex tucked away in some corner of my carcass."

First Cannon Tubes of Metal or Made of Wood

Early war engines included the catapult, employing twisted fiber or hair for propelling power; the ballista, a large-sized catapult, and the onager, a machine employing the principle of the spring for projecting missiles, says a writer in the Chicago Tribune. A small catapult had a range of about 400 yards, a larger and heavier one a greater range.

Missiles ranged from simple rocks to various forms as they were developed up to the time of the invention of gunpowder, though it is doubtful whether any of them had a greater range than the 1,000 yards of the superengines invented by Archimedes.

The introduction of gunpowder into the business of war in Europe early in the Fourteenth century changed completely both weapons and missiles, though the change was not so abrupt as might be supposed. For a long time, for instance, the old missile engines remained almost the equal of early cannon, and the longbow stood as superior to the earliest small arms employing powder. Cannon were invented before muskets and pistols. First cannon were called bombardards and were nothing more than tubes of metal or tubes of wood bound with metal. These bombardards, some of which were constructed of great proportions and capable of hurling missiles weighing as much as 1,800 pounds, had a maximum range of not more than 2,000 yards, a majority, however, shooting extreme distances of much less than that.

The Guggenheim Foundation

The purpose of the Guggenheim Foundation for the Promotion of Aeronautics may be broadly defined as follows: To promote aeronautical education, both academic and general; to assist in the extension of fundamental aeronautical science; to assist in the development of commercial aircraft and aircraft equipment; to further the application of aircraft in business, industry and other economic and social activities of the nation.

The Palomino Horse

The term palomino is simply one word used to describe the painted horse, that is, a horse showing regular markings of white and black, or white and another color, in some instances of three colors. The painted horse so common in the West is a descendant of the Spanish horse brought to America by the Spanish conquistadores. The striking coloration has not resulted from any careful breeding. On the contrary horses of this type are allowed to run on the range for a part of the year as a rule, and their breeding has been rather a matter of chance.

Alloys Compete With Steel

Light alloys of non-ferrous metals that have a strength comparable with steel are strong competitors of metals. These substances have long been associated with pipe stems, lunch trays, brackets, and other novelties, but now they are being made into castings for heavy manufacturing equipment with success. Used with asbestos fibers, resin can be molded into pieces of almost any size. The resulting "castings" are much lighter than similar ones of iron.

Greeks Considered the Feet

The ancient Greek ideal of the foot was that of an undeveloped hand and they endeavored in their sculpture to impart that hand-like character to their feet.
