**We Can Cut Your Tire Costs 50% AND MORE**  
Here Are The Money Saving Facts  
READ THE QUESTIONS AND ANSWERS BELOW:

- How can I save 40% to 60% on tire costs? By having Hawkinson Tread applied to your tread-worn tires by us.
- What is a Hawkinson Tread? A brand new, live tread rubber scientifically applied that maintains a tire that has become worn smooth to the point of danger.
- How does this new tread improve the tire? (a) By giving new, safe non-skid traction. (b) By making steering much easier when used on the front wheels.
- Do my tires justify applying this new tread? Any well made tire that is worn smooth, and that is skid-slow and bodes more than justifies a new running surface. We can determine this by scientific tests.
- What mileage can I expect? You can reasonably expect that the new Hawkinson tread will deliver practically the same mileage as the original, just as shoes with good uppers will give full second wear when re-soled with high grade materials.
- How are they different from ordinary retreads? The Hawkinson process replaces only the surface that actually wears off. No heat is applied to the sidewalls; hence they are not over-cured as with other processes. Your tire is buffed differently, cemented differently and vulcanized differently. The original identity of your tire is retained.
- What does the new tread cost? This varies according to tire size. In no case does it equal the cost of good tires; in many cases it is less.

**Auxiliary Unit to Entertain Ninth District July 18**  
Members Will Be Hostesses to 150 at Meeting Thursday  
Total members of the Auxiliary are busy preparing for a sixth district meeting to be held here Thursday, July 18, at the Methodist church. The program will begin at 8 p. m. Preceding the meeting, a musical program arranged by Mrs. C. E. Lovendahl will be given by district officers.  
The Rev. Joseph Bernhard, district pastor, and her officers will have charge of the meeting after which refreshments will be served. About 150 guests are expected by the local hostesses.  
**Howard P. Castle Gets Scholarship From U. of Chicago**  
Howard P. Castle, son of Mrs. H. P. Castle, 525 Grove avenue, has been awarded a one year honor entrance scholarship to the University of Chicago, according to an announcement made by University of Chicago officials Wednesday.  
The award, valued at \$300, covers tuition in the university for one academic year, and was given to Howard in recognition of his leadership, character, and achievement in studies evidenced by his record in Barrington high school from which he was recently graduated.  
The committee on the award of scholarships was impressed by the fact that in addition to graduating at the head of his class, he distinguished himself in a varied field of extra-curricular activities. He was president of the senior class, and a leader in dramatic, literary, scouting, and student activities. In addition, he volunteered as reporter at The Review office for several months.  
Federal Project Adds Beauty to Forest Preserve  
Continued from page 1  
Work has been graded, new culverts installed and sodding has been placed on the shoulders of the road for many miles. The road surface has been improved with crushed stone.  
More than 40,000 trees of many descriptions have been planted to replace dead stock and the undergrowth has been removed to give trees, grass and shrubs an opportunity to receive the necessary sunlight.  
All work is being done by 300 board boys from Chicago and other localities under the supervision of government officers.
