Village Settles Gjellefeld Sewer Claim for \$400
5 Year Old Account Satisfied at 25 Cents on the Dollar

Compromise settlement was reached Monday night by the village trustees and the Gjellefeld Construction Co. represented by Attorney H. L. Cavender...

The village project had been carried out, the park won't have a convenient outlet for storm water, but the village plans were abandoned after Barrington was made defendant in a suit which asked a court order to restrict the village from use of its outlet into Flint creek...

The storm swept down the Fox Valley into Aurora but the heaviest damage was reported between Elgin and Barrington. Property damage was estimated at hundreds of dollars.

Use for Ambergris
Ambergris is a valuable fatty, inflammable substance, ash in color, and it is secreted from the intestines of the cachalot or sperm whale...

Some Window Shades "Just Can't Take It"
Most any window shade will look well when first hung at your windows but after a few months service it is quite a different story.
Course, filled, unprotected fabrics can't stand rough handling or moisture and burn out quite rapidly upon exposure to the sun.
Only window shade of unfilled Hand Made shade cloth is adequately protected against these three causes of deterioration.
They are protected against cracking because no filling is used in the cloudy woven cloth. Against sun and moisture they are given the most effective protection ever devised for this purpose - pure linseed oil colors brushed into the fabric by hand.
We can supply Hand Made window shades in the right size and color for your windows at very reasonable prices.
Repair (includes turning and rehangings) next week only, each 15c
