

Walter Wanger's 'Vogues of 1938' Week-End Feature

'Partners in Crime' Coming Wednesday for Two-Day Showing

Right on the heels of his sensational hit, "A Star Is Born," David O. Selznick has ushered in another magnificent piece of entertainment. The picture is "The Prisoner of Zenda," Anthony Hope's swash-buckling tale of love, intrigue and adventure in the courts of Europe, with Ronald Colman, Madeleine Carroll and Douglas Fairbanks, Jr. in the leading roles, and the re-creation of the Catlow theatre audience where it had its local premiere last night took the world in no uncertain terms that Mr. Selznick has another hit on his hands! America's most widely publicized penitentiary, that "Big Rock," situated in the chill waters of San Francisco Bay, is brought to the motion picture screen for the first time in "Alcatraz Island," a thrilling melodrama which comes to the Catlow Saturday.

Mr. and Mrs. Lawrence Kitz of Woodstock, Mr. and Mrs. Joseph Krivders and Mr. and Mrs. Gus Kraus and families surprised Frances Bloner Sunday in honor of her birthday. Dinner was served by the chairman of the committee, attributing the sharp decrease in the mortality rate in part to the war on the disease financed by the sale of Christmas seals.

Additional national statistics disclosed that five out of every 100 deaths today are caused by tuberculosis, whereas thirty years ago this disease claimed 12 out of every 100 deaths.

This noteworthy decline has been brought about through the intensive public health programs made possible by Christmas seals. Newer medical techniques, including the tuberculin test, chest X-rays and collapse therapy have brought the disease into the open and enabled treatment to begin before irreparable damage had been done. Christmas seals sold in Barrington make possible the health programs and services of the Barrington Health Center. Mrs. Kirkman urged greater participation in the Barrington seal sale as a factor in protecting adults and children from this disease.

Gains of Tubercular Battle Are Cited By Seal Sale Chairman

"A life every eight minutes is the toll of tuberculosis," Mrs. Frank C. Kirkman, chairman of the Barrington Christmas seal committee, affiliated with the Chicago Tuberculosis Institute, said today. "Thirty years ago tuberculosis took a life every 3 1/2 minutes," the chairman continued, attributing the sharp decrease in the mortality rate in part to the war on the disease financed by the sale of Christmas seals. Additional national statistics disclosed that five out of every 100 deaths today are caused by tuberculosis, whereas thirty years ago this disease claimed 12 out of every 100 deaths. This noteworthy decline has been brought about through the intensive public health programs made possible by Christmas seals. Newer medical techniques, including the tuberculin test, chest X-rays and collapse therapy have brought the disease into the open and enabled treatment to begin before irreparable damage had been done. Christmas seals sold in Barrington make possible the health programs and services of the Barrington Health Center. Mrs. Kirkman urged greater participation in the Barrington seal sale as a factor in protecting adults and children from this disease.

infants lack fear Psychologists say infants have no ingrained fear of such things as snakes and stormstorms.
