BARRINGTON HILLS. — The midnight candle light service on Christmas Eve in St. Peter Episcopal church at Dundee was attended by many from Barrington Hills. Elephant's Bones Seldom Found. It is estimated that about 2,000 elephants die each year in Africa, yet their bodies or bones are seldom found. Nobody has been able to explain why the elephants go to die there. It is a theory that they have an undiscovered "elephant cemetery," but this is very unlikely. The most feasible theory seems to be that they crave water to drink when sick, go to the nearest river or swamp and become mired in the mud. If this is true, says Pearson's London Weekly, there should be some great stores of ivory on the bottoms of Africa's rivers and swamps after all these centuries.

Wauconda Woman's Club Sponsors Public Library

The Wauconda Woman's club last week took the first steps to inaugurate a long-needed community project in that village by allocating a sum of \$35 to use for the first purchase of books. The volumes will be placed in the Wauconda high school library and arrangements are being made whereby the general public will have access to them. It will be remembered that the Barrington public library is the outgrowth of a development started and maintained by the Barrington Woman's club a number of years ago. Later a general tax referendum was approved by the residents of Barrington.
